SUBJECT INDEX

Academic Performance Index (API), 81, 138–139
Accountability
  and coupling of schools, 10–12
  federalist model, 14
  and NCLB Act, 35–36
  organizational mechanisms and local effects of top-down, 8
  school's internal, 71
  standards-based, 11
  and working condition, 107–109
Adequate Yearly Progress (AYP) targets, analysis, 22, 43, 49–50, 55–58, 60, 104, 113–114
Advancement Via Individual Determination (AVID) program philosophy, 172

Bae, Soung, 23, 189
Borko, H., 19
Bush, George H. W., 5, 7

California, accountability system in
  data methods
    classification of schools and districts, 79–80
    rating of schools and districts, 77–79
    sampling strategy and data, 76–77
    weak and strong accountability, 76
  discussion, 90–98
  results, 81
    state accountability context, 80–81
    Urban district, 88–89
    Vine district, 89–90
  theoretical framework
    internal accountability and loose coupling, 71–72
    responses to accountability policies, 72–75
    role of district, 69–71
California Achievement Test, 6th Edition (CAT6) tests, 81
California High School Exit Exam (CAHSEE), 80–84, 86, 88–89, 162–183, 187–188
California's Public School Accountability Act (PSAA), 139
Capacity building, 161–162
Castellano, Marisa, 209
Centralized curricula and high-stakes testing, 6–7
Centralized environments and accountability policies, 137
Christensen, Gayle, 22, 67
Chubb, John, 10
Clinton, Bill, 4–5, 9
Cohen, Michael, 10–12
Coupling, of education system
  internal accountability, 71–72
  and policy responses, 72–75
Cross, Christopher, 5

Decentralized environment and accountability policies, 135–137
District's role, in accountability reform
  data methods
    classification of schools and districts, 79–80

rating of schools and districts, 77–79
sampling strategy and data, 76–77
weak and strong accountability, 76
discussion, 90–98
results, 81
relationship between district efforts and schools' responses, 94–98
state accountability context, 80–81
variation in responses, 93–94
theoretical framework
internal accountability and loose coupling, 71–72
responses to accountability policies, 72–75
role of district, 69–71
District's role, in teacher learning and development. *See also* California, accountability system in
coherence, 70–71
discussion, 203–205
findings
coaching model, 197–199
district-wide professional development, 195–197
human capital, 194–195
leadership, 201–203
trust, concept of, 199–201
internal accountability, 79–80
methods
data analysis, 193
data collection, 192–193
district context, 192
theoretical framework, 190–191

Effective district- or school-level practices, analysis
in centralized environments, 137
in decentralized environments, 135–136
discussion and policy implications, 151–154
findings, 143–151
indices for, 140–143
limitations of research, 138
school sample, 138–140
Elliott, R., 19
Empowerment, 108–109, 111, 113–114, 120–123
Exit examination, in high school
background and history, 159–160
policy assumptions, 161–162
research on high schools' response
curriculum change, effect of, 167–173
findings of study, 164–167
instructional change, impact, 173–183
sample schools, 163–164
Exit examination, in VHS
discussion, 228–231
estimates, 211–212
findings
academic achievement, 218
challenges and disappointments of students, 226–227
inequalities, 227–228
reform efforts, 222–223
schedule changes and its impact, 219–220
school district and VHS, 216–218
state support and resources, 224–225
students' work experience, 222
teacher experiences, 220–222
methodology
data collection and analysis, 215–216
sample, 215
Exit examination policies, 161–162
External accountability policies and teachers, 108

Georgia Quality Learning and Teaching Environments Initiative (QLTE) survey, 109–110
Gordon, Kristen, 22–23, 103

Hamilton, L., 22, 31
Henne, Melissa, 23, 26, 133
High Priority Schools Grant Program (HPSGP), for schools, 81
High school response, to exit exam. *See* Exit examination, in high school
Holme, Jennifer Jellison, 23, 157

Immediate Intervention/ Underperforming Schools Program (II/USP), 81
Implementing Standards-Based Accountability (ISBA) project
  data and methods
    analytical approach, 41
    surveys, 40–41
  discussion, 60–63
  perspectives on organizational reform, 33–34
  practical application, 36–38
  results
    development of a school and district improvement plan, 50–53
    instructional practices related to SBA, 42–50
    relationship between school- and classroom-level responses to SBA, 53–60
  theoretical aspects, 34–36
Incentives, for accountability, 35
Instructional leadership, 55
Instructional practices
  alignment of curriculum and student assessments, 43–45
  attributed to testing, 45–47
  elementary teachers and, 42–43, 46–49
  in Georgia, 49–50
  responses of middle school teachers, 46, 48–49
  role of occupational norms and workplace conditions, 33
  school-level efforts, 34
  time, 42–43
  use of achievement data for instructional decision-making, 47–50
Internal accountability, 71–72

Jang, Heeju, 23, 26, 133

Luschei, Thomas, 22, 67

Marsh, Julie A., 31
McNeil, Linda, 18
Meyer, John W., 10
Miles, Jeremy, 31
Minimum competency tests (MCTs), 159
Mintrop, H., 19
Moe, Terry, 10

No Child Left Behind Act (NCLB), 2001, 7, 31, 50, 67, 104, 108–109, 161

O'Connell, Jack, 160
Organizational reform, perspectives on, 33–34

Porter, Roger, 5

Reagan, Ronald, 1
Romberg, T., 19
Russell, Jennifer Lin, 31

Schmidt, Michèle, 23–24, 209
School- and classroom-level responses to SBA, analysis
  instructional leadership activity measures, 55

multilevel modeling approach, 56–60
principal measures, 54–55
results for teacher's use of achievement data, 59–60
teacher measures, 55–56
test-focused instructional practices, 57–58
Similar Students, Differing Results (SSDR) study, 135
Smith, Marshall, 10
Specially Designed Academic Instruction in English (SDAIE), 87
Standards-based accountability (SBA), 11
action mechanisms, 36
direct changes in teacher practice, 37
effects at the school level, 37–38
instructional practices
alignment with curriculum and student assessments, 43–45
attributed to testing, 45–47
time, 42–43
use of achievement data for instructional decision-making, 47–50
in practice, 36–38
student learning, impacts, 37
in theory, 34–36
under NCLB Act, 35–36, 50
Stanford Achievement Test, 9th Edition (SAT9), 81, 88–89
Stecher, Brian, 19, 31
Stone, James R., III, 209
Stringfield, Sam, 209
Student achievement
and accountability policies, 6–14
centralization of education, 4–6
and government policy, 2–4
relationship with teacher-reported practices
district staff emphasize on student learning, 141
and ethnic groups, 143–151
focus on school's curriculum, 142
focus on student subgroups, 141–142
modification of pedagogical practices, 141
policies regarding student behavior, 141
positive environment, 143
school focus on, 140–142
school priorities, 141–142
teacher development for serving English learners, 142
teacher expectations, 141
teachers use of curricular standards, 140
in United States, 1

Tapales, Athena, 209
Teaching practices and accountability
data and methods
analytical approach, 41
surveys, 40–41
discussion, 60–63
perspectives on organizational reform, 33–34
practical application, 36–38
results
consistency of teachers' responses, 50–53
development of a school and district improvement plan, 50–53
instructional practices related to SBA, 42–50
relationship between school- and classroom-level responses to SBA, 53–60
theoretical aspects, 34–36
Thatcher, Margaret, 1, 11–12

Top-down accountability policies, 105–107, 123–126
Trujillo, T., 19

U.S. job growth and educational system, 160

Valenzuela, Angela, 18
Vocational high school response, to exit exam. *See* Exit examination, in VHS

Williams, S., 19
Woody, Elisabeth, 19
Working condition
  and accountability, 107–109
  teachers' assessments of, 109–114
    qualitative analysis, 114–123

Zarinia, E., 19
