

INDEX

- Accountability, 53, 103
- Active decisions, 32
- Aristotelian reasoning, 11

- Baudrillard's work, 87
- Benefit, cost and signifying value (BCS value), 47, 93
- Benefit(s), 103
 - benefit- and signifying-related factors, 56
 - codes, 52
- Bialetti coffee maker, 26–27, 74–75
- Bottom-up change, 37
- Bottom-up/teacher-led initiatives, 41
- Brands, 75
 - affecting consumption, 25–27
 - consumer, 7, 75
 - power of, 25

- Chestnut approach, 90
- Chestnut Church of England Learning Federation, The*, 42

- Chestnut Learning Federation
 - model, 42–43
 - school improvement plan, 57–58
- Climate Care, 74
- Collaborative and networked orientations, 57
- Collaborative EIP, 39, 41, 57, 70
- Collaborative orientation, 50, 95
- Collaborative professional development, 90
- Competing priorities, 52–53, 101, 103
- Confidence to collaborate, 50–51, 96, 99
- Confident professional autonomy, 53, 102
- Consensus Project, 2, 86
- Constructivism, 76
- Consumer object, 78

- Danes cycling, 91
- Education, case studies
 from, 37, 55
 allocation of respondents,
 46, 61
 allocation of thematic
 codes, 49, 63
 benefit- and signifying-
 related factors, 56
 characteristics of
 interview respondents,
 45
*Chestnut Church of
 England Learning
 Federation, The*, 42
 Chestnut Learning
 Federation's model,
 42–43
 Chestnut Learning
 Federation's school
 improvement plan,
 57–58
 collaborative EIP, 39,
 57–59, 70
 EEF, 41
 EIP, 38
 enquiry mindset, 48, 51
 evidence-informed
 approaches, 40
 Finnish model, 59
 networked learning
 conversations, 51
 new hierarchy of thematic
 codes, 62
 OR type of participants,
 45, 59–60
 ORPs, 38–39
 ORS approach, 71
 pre-intervention'
 interview data, 55
 qualitative methodology,
 43
 research-use measures, 44
 research questions,
 44–45
 respondents, 64, 65, 67
 RLC approach, 68
 thematic analysis, 47
 type 1 quadrant, 48, 50
 type 2 quadrant, 50–51
 type 3 quadrant, 51–53
 type 4 quadrant, 53
 type 4 rejecter, 69
 Education Endowment
 Foundation
 (EEF), 41
 Educational 'self-
 improvement', 37
 England
 Chartered College of
 Teaching, 41
 'Drink Aware'
 campaign, 74
 Enquiry-related
 professional growth,
 69–70
 Enquiry mindset, 48, 51,
 100
 of participants,
 94, 97
 Evidence-informed practice
 (EIP), 37, 38,
 40, 57
 collaborative EIP, 39, 41,
 57–59, 70

- Finnish model, 59, 90
- ‘First do no harm’ principle, 40
- Gateway belief, 87
- Guardian, The*, 86
- Huaca Pucllana excavation site in Lima, 23
- In-depth semi-structured interviews, 43–44
- Inductive analysis, 47
- Interview analysis, 93
 - mid-level codes, 98
 - networked learning conversations, 95
 - signifying values of EIP, 96, 99
 - type 1 quadrant, 93–94
 - type 2 quadrant, 97–99
 - type 3 quadrant, 99–102
 - type 4 quadrant, 102–103
- Learning
 - community culture development, 58
 - conversations, 48, 50, 95, 97
 - organisations, 57
- London Borough of Tower Hamlets, 80
- London’s 1970s punk-rock music scene, 76
- Malevich’s groundbreaking painting of black square, 76
- Malevich’s suprematism movement, 76
- Mid-level codes, 47, 48, 50, 93, 98
- Moral imperatives, 11
- Nespresso coffee maker, 25, 26, 74–75
- Netflix, 29
- Network orientation, 48, 51, 96, 97
 - of participants, 52
- Networked learning conversations, 51, 52, 95, 97
- Non-financial costs, 30
- Optimal rational positions (ORPs), 9, 14, 73, 81, 83, 85
 - brand, 28
 - brands, 75
 - discourses/behaviours, 81
 - England’s ‘Drink Aware’ campaign, 74
 - London Borough of Tower Hamlets, 80
 - relational approach to, 24
 - scenes, 75, 76
 - temporal scenes, 79
 - types, 29–30
- Optimal rational/semiotic approach (ORS approach), 37, 43

- Optimal rationality (OR),
 9, 10
 Aristotelian reasoning, 11
 individuals, 18
 positions, 14
 post-intervention, 60
 potential rational
 behaviour, 15
 rationality gaps, 17
 rationality types, 19
 short-term responses, 12
 short-term welfare
 reward, 16
 type of participants, 45,
 59–60
- Paul McCartney's 'Meat
 Free Mondays', 91
- Performativity, 103
- 'Pre-intervention' interview
 data, 55
- Rational choice theory
 (RCT), 9, 10
- Rationality gaps, 17, 23
 active decisions, 32
 archaeologists, 23, 24
 benefits, 29–30
 brands, 25, 26
 costs, 30–31
 ORPs, 24, 28
 semiotic analysis into OR
 matrix, 33
 semiotics, 25
 signification, 28–29
- Reflection on academic
 research, 52, 57, 94,
 100
- 'Research-engaged'
 schools, 39
- Research Learning
 Community approach
 (RLC approach), 57
 independent scientific
 evaluation, 72
 key attributes, 58
- Research Schools initiative,
 41
- ResearchED conferences, 41
- Scenes, 75, 76, 80–82
 capital, 78–79
 characteristics, 76–77
 consumer object, 78
 temporal, 79–80
- Semiotic analysis, 88, 89
 to fill rationality gaps,
 23–34
- Semiotics, 25
- Signifying values, 47, 50,
 51, 53, 96, 99, 102
- Social science, lessons for,
 85
- Baudrillard's work, 87
- Danes cycling, 91
- Finnish model, 90
 semiotic analysis, 88
 technical and adaptive
 changes, 86
 time interventions, 89
- Suprematism movement, 76
- Teaching assistants (TA),
 51, 98
- 'Teachmeets' conferences,
 41

- Thematic analysis, 47
- Thematic codes
 - allocation, 49
 - hierarchy, 47, 48
- Type 1 individuals,
 - 18, 20, 59, 67,
 - 89–90
- Type 1 ORP, 73
- Type 1 quadrant, 48, 50,
 - 55, 88, 93–94, 97
- Type 2 individuals, 18, 67
- Type 2 quadrant, 50–52,
 - 97–99
- Type 3 individuals, 18, 20
- Type 3 quadrant, 51–53,
 - 99–102
- Type 4 individuals, 18, 20
- Type 4 quadrant, 53,
 - 102–103
- Type 4 rejecter, 69
- Universal moral
 - imperative, 11
