Acknowledgement

We have completed the international conference, Malikussaleh International Conference on Multidisciplinary Studies 2017 (MICoMS), which was conducted as the media to share the research results across the disciplines of study. There were 154 papers submitted, 132 of them were eligible to be presented at the conference, and only 100 papers can be published in Emerald Publisher. The papers were submitted by lecturers, students and researchers from Malikussaleh University and various universities throughout Indonesia and 5 countries.

We would like to thank all contributors to this proceeding, the keynote speakers, scientific reviewers, and the committee who have helped in the preparation and the organization of the conference, and great appreciation also goes to the publisher, Emerald.

We do hope that the proceedings can contribute to the development of science and technology and it is expected that there will be more conferences to be held in the future.

Yulius Dharma, S.Ag., M.Si

Dean of Institute for Research and Community Service, Malikussaleh University
