EUROPEAN SECURITY IN A POST-BREXIT WORLD

BREXIT STUDIES SERIES

Series Editors: Alex De Ruyter, Jon Yorke and Haydn Davies,
Centre for Brexit Studies, Birmingham City University, UK

With the vote on 23 June 2016 for the UK to leave the European Union, it has become imperative for individuals, business, government and the wider society to understand the implications of the referendum result. This series, published in collaboration with the Centre for Brexit Studies at Birmingham City University, UK, examines a broad sweep of topics related to Brexit. It aims to bring together academics from across the disciplines to confront and examine the challenges withdrawal from the EU brings. The series promotes rigorous engagement with the multifaceted aspects of both the 'leave' and 'remain' perspectives in order to enhance understanding of the consequences for the UK, and for its relationship with the wider world, of Brexit, and aims to suggest measures to counter the challenges faced.

Published Titles

Alex De Ruyter and Beverley Nielsen, *Brexit Negotiations after Article 50: Assessing Process, Progress and Impact*

David Hearne and Alex de Ruyter, *Regional Success after Brexit: The Need for New Measures*

Forthcoming Titles

Arantza Gomez Arana, *Brexit and Gibraltar: The Negotiations of a Historically Contentious Region*

PRAISE FOR *EUROPEAN SECURITY IN A
POST-BREXIT WORLD*

‘Superficially, Brexit looks quite straightforward; but, dig only a little deeper and the complexities are quickly evident. This is particularly so for the security sector. This book is an important and timely contribution to the debate and the need for specialists and wider public alike to have steady, informed hands guide them through the maze. The authors take the reader carefully through a phased introduction to these complexities and provide a detailed explanation of the respective legal and agency components of the intelligence/law enforcement sectors. One of the “stand-out” features of this book is that it is able to present the reader with a clear understanding in a straightforward and accessible reader-friendly style of what are highly complex, often highly nuanced elements’.

Professor Neil Renwick, Coventry University, UK
