INVESTOR IN PEOPLE

We would like to dedicate this volume to NGO managers and the frontline care workers dealing with pandemics, HIV/AIDS and marginalised group members of the society who are the real heroes and heroines in the developing world.

ABOUT THE AUTHORS

Dr Farhad Analoui is Professor of International Development and Human Resource Management, and has recently retired from the University of Bradford, UK (1988–2020). He lectures and provides consultancy services in management, capacity development and leadership effectiveness. Dr Analoui has worked with International Development agencies including the British Council, DFID, World Bank, UNDP, Regional Development Agency, Human Dynamics, Romanian European Commission and Siemens, in Europe, Africa, Asia, the Middle East, South East Asia and China. Dr Analoui has conducted research in Zimbabwe, Ghana, India, Oman, Romania, Croatia and in the UK. He has written several books, edited works and has published numerous articles in referred and professional journals.

Dr Shehnaz Kazi is Associate Researcher at the Department of Peace Studies and International Development, University of Bradford (UK). She has carried out empirical research in non-governmental organisations (NGOs) in India and has published a research paper, Development Working Papers Series, and a research report for the National AIDS Control Organisation (NACO), a division of the Ministry of Health and Family Welfare at Government of India. She has held seminars, lectures and conducts post-doctoral research in the field of 'managerial effectiveness', human resource development, third sector development, international development and capacity development for NGOs.

ACKNOWLEDGEMENTS

We are thankful for the support we have received from the National AIDS Control Organisation (NACO), Ministry of Health and Family Welfare, the Government of India, who saw value and potential in our quest to investigate and explore the untouched areas associated to the third sector environment in India.

This research would not have been possible without the commitment of the participating non-governmental organisations (NGOs) in the Maharashtra and Goa states in India, who are dealing with HIV/AIDS, and community development for marginalised groups and least regarded members of society.

We extend our appreciation to the NGO managers and non-managerial staff members at *Mahaba, Diva, Veda, and Rafaa* who took part in this study and for their sincere cooperation and support. We highly appreciate the friendly support we have received from our academic colleagues and friends; Prof. Chris Rees, Prof. Prathivadi Anand, Dr Rashmi Arora, and Nick Wolterman, the Editor, and also the publishing staff at Emerald; Alice Ford, Virginia Chapman, Lauren Malone, and Nagaruru Balaji Sai for their friendly guidance, unceasing support and encouragement throughout this project.
