

INDEX

- Accountability, 59–60, 64–66, 88, 91, 102, 106, 122–125
 - favouring accountability in crisis, 67–70
 - of public institutions and healthcare providers, 85–86
- Accountability linkages, 68
- Accreditation of hospitals, 52–53
- Active surveillance, 34–35
 - strategy of, 118
- Actors, 69–70
- Adaptability, 26–27
- Add-on payments, 59–60
- Adequate service delivery, 9–10
- ‘Administrative barriers’, 88
- Agencies of restraint and enforcement, 69–70
- Ambulatory care, 71–72
 - providers, 72–73
- Analysis and synthesis, 33
- Animal health sectors, 83
- Appropriate accountability, 124
- Appropriate
 - communication of information, 9–10
- Availability
 - of essential medicines, 54–55
 - of fast-track regulatory procedures, 88
- Awareness, 26–27
- Azienda Zero*, 124–125
- Belonging, 50
- Bilateral approach, 75–76
- Building blocks, 4, 8
- Capacity, 91, 97, 101, 119–120
- Care
 - ambulatory, 71–72
 - coordination, 71–72
 - crisis standards of, 88–89
 - long-term care, 71–72
 - quality of, 51–52
- Career opportunities for professionals working, 47–48

- Change execution in health system, 127–130
- Chronic diseases, 25–26
- CICLA framework, 92, 94, 96, 127
 - accountability and good governance, 102–106
 - capacity and capability, 97–101
 - communication, 92–94
 - diffused leadership, 106–107
 - intelligence, 94–96
 - legal support, 101–102
 - rationale, 91–92
- Citizen participation and engagement, 70–71
- Civil registration, 35–36
- Civil registration and vital statistics system (CR*vs.* system), 38–39
- Civil society, 75
 - engagement, 77–79
- Civil society organizations (CSOs), 77–78
 - engagement of, 78
- Clear communication strategies, 28–29
- Clinical staff, 44
- ‘Cognitive restructuring’, 130
- Communication, 91–92, 94, 113, 117
 - strategy of health information, 28–29
 - and use, 33
- Communicators, 42
- Community level resilience, 24
- Compilation, 33
- Conceptual skills, 66–67
- Content, 7
- Contingency Fund for Emergencies (CFE), 61–62
- Contingency funds, 61–62
- Continuous professional development programs, 49
- Cooperation, 74
- Coordinate efforts, 80–81
- Coordinating bodies, 78–79
- Coordination, 73–74
 - of ambulatory care providers, 72–73
 - and collaboration, 64–65
 - between government sectors, 9–10
 - structures, 84
- Core health system, 9–10
- Coronavirus, 1–2
- Corriere della Sera*, 44–45
- Council of Australian Governments (COAG), 74–75
- COVID-19, 1–2, 4, 23–24, 74
 - filling gap from theory to practice, 11–21
 - foundations of resilience of health systems, 9–11

- guidelines during, 55
- health system resilience, 5–11
- meaningfulness, 8–9
- medical emergency, 78
- outbreak in China, 2
