

# Index

- Action orientation, 25–26, 32–33
- Adaptation, 102, 187, 193
- Adaptive employee resilience, 100, 105, 192
- Adversity, 84–85, 92, 104–105, 197
  - experienced, 103, 193
  - for recovery, resilience, and learning, 196–199
- Affect, 2, 9, 12, 14, 23–25, 31, 34, 175
- Affective regulation, 30–31
- Arbeitslosenversicherung und Insolvenzentschädigung (AVIG), 148
- Average variance extracted (AVE), 8
- Bankruptcy, 144–145, 147–148, 153, 158, 160
- Behavioral control
  - dispositional preference of, 25–26
  - volitional, 23
- Boundary organizations, 180
- Business failure, 59, 61 (*see also* Network failures)
  - Rites of Passage, 59–65
  - socialized sensemaking through rites of business failure, 65–72
- Career transitions, 70
- Coded problem groups, 129–130
- Cohesion, 42
  - coping with collective failures in teams, 47–48
  - coping with individual failures in teams, 46–47
  - emergence of failures in teams, 44–46
  - multilevel perspective on functional and dysfunctional coping with failures in teams, 44–50
  - practical implications, 52–53
  - theoretical implications and future research opportunities, 50–52
  - vicious and virtuous circles of team cohesion, 48–50
- Collaboration, 174–176, 179–180
  - cross-boundary, 180
  - interorganizational, 175–176, 193
  - serendipities, 179
- Communication and culture, 94–95
- Confirmatory factor analysis (CFA), 6–8
- Coping, 42
  - with collective failures in teams, 47–48
  - with individual failures in teams, 46–47
- Corporate social responsibility (CSR), 84, 88
- Creditors, 157, 161, 164–165, 167
- Criticality dimension of setback severity, 4–5, 13
- Cross-boundary collaboration research, 180
- Culture, 94–95, 111
- Deception, 126–127
- Decision-making algorithms, 146
- Digitalization, 180
- Disruption, 4
  - dimension of setback severity, 4
- Emotional exhaustion, 9, 12, 28
- Emotional flooding, 135
- Emotional valence, 182
- Emotions, 9, 14, 23, 28, 65–66, 68, 153, 195–197
- Employee benefits, 89, 91, 93–94

- Employee resilience, 105
  - post-failure at work, 101
- Enterprise support, 74
- Entrepreneurial failure, 144–145
  - benefit of, 146
  - cost of, 145
  - experiencing, 153–157
  - stigma around, 146–147, 160–163
  - transforming, 157–158
- Entrepreneurial knowledge, 158–160
- Entrepreneurs, 70–71
- Entrepreneurship, 71, 74
- Equifinality, 100, 102
- Event system theory (EST), 2–3, 12
- Events, 2–3, 5
- Executive Master of Business (EMBA), 114
- Exploratory factor analysis (EFA), 5–7
- Failure(s), 11, 14, 22, 26, 125, 144, 174
  - consequences, 111–112
  - emergence of failures in teams, 44–46
  - qualitative research study on, 128–130
  - for recovery, resilience, and learning, 196–199
  - at work, 100
- Financial cost, 145
- Financial hardship, 145
- Five-by-Five Resilience Scale (5×5RS), 114
- Fixed mindsets, 28
- Gig economy, 198
- Goal hierarchy, 102–103
  - employee resilience post-failure at work, 101
  - future research, 107
  - goal revision as resilience, 101–103
  - illustrative example, 104–105
  - practical implications, 106
  - theoretical implications, 105–106
- Goal revision
  - or abandonment, 104
  - as resilience, 101–103
- Goal striving, 100–101
- Grand challenge, 174, 177
- Growth mindsets, 28–29, 34
- Hard negotiation tactics, 126
- Hardiness, 112
- High-performance work systems (HPWS), 87
- Holocaust survivors, 22
- Human resource (HR), 192
- Human resource management (HRM), 84
- Human resource management
  - practices (HRMP), 86–87
  - to develop workplace resilience, 87–90
  - employees’ point of view, 88–89
  - managers point of view, 87–88
  - perspectives, 89–90
- Hypotheses development, 112–114
- Identity, 70
  - threat, 9
- Impasse, 127
- Integrative intervention model, 34
- Intentional learning, 133
- Interorganizational networks, 174
- Intrapsychic macrosystems, 23
- Intuitive behavioral system, 23
- Item generation, 5–6
- Item reduction, 5–6
- Job crafting, 91–92
- Job design and selection practices, 90–92
- Job stressors, 28
- Kintsugi* (golden joinery), 84–85
- Kintsukuroi* (golden repair), 84–85
- Knowledge, skills, and abilities (KSAs), 44
- Leadership, 33–34
- Learning
  - integration of research on, 194–196
  - models, 182–196

- setbacks, failure, and adversity for, 196–199
  - summarizing insights on, 192–193
  - synthesizing insights on, 193–194
- Learning from failure (*see also* Business failure)
  - data collection, 148–153
  - findings, 153–166
  - interviewees, 149–152
  - method, 147–153
  - in negotiations, 130–137
  - theoretical background, 144–147
- Legal framework, 163–164
- Liminal time, 63
- Macrosystems, 23
- Maximum shared variance (MSV), 8
- Measurement, 3, 6, 11
- Mindsets, 26–30, 33
- Mistake tolerance, 113, 115
- Modularity, 180
- Motivation, 100, 102
- Multilevel perspective on functional and dysfunctional coping with failures in teams, 44–50
- Multivocality, 174
- National nanotechnology initiative (NNI), 177–178
