INDEX

Note: Page numbers followed by "*n*" indicate notes.

Acting, 106, 108
Action research, 63
African megachurches, 93
Agile approach, 82
Alpha Church, 19
Alpha et Omega, 114–118
Ancilla theologiae, 51, 121
Apologetics, 44, 51
Application programming interfaces (APIs), 77, 81
Artefacts, 4, 63, 84, 122
Artificial intelligence, 5 (*see also* Virtual reality)
  experts, 10
  modern, 51
  technologies for, 51–52
Artificially intelligent theology, 51–52
Association for Computing Machinery (ACM), 84, 90*n*4
Augmented reality church, 20–22

Being, 107–108
Belonging, 107–108
Belongingness technologies, 108
Bespoke apps, 30
Bible apps and in year apps/ plug-ins, 23–24
Biblingo software, 23
Big data theology, 49–51
Black swan, 122*n*2
Bottom-up theologising, 41–42

Canon, 52
Case studies, 74
Catechism, 46
Center for Humane Technology, 33
Christian Chat, 20
Christian Connection, 25
Christian dating apps, 25
Christian faith, 25
Christian theology, 1, 6
Christianity, 7, 52
Church historian, 120
Church leadership and management technology, 30
Church online, 116
ChurchSuite, 30
Classification problems, 66
Clustering problems, 66
Co-design process, 5, 43, 53, 82, 117
Community of faith, congregation or church, 4
Conceive, design, implement and operate approach (CDIO approach), 8
Congregation, 39
Constructive research (*see* Design science—research)
Content analysis, 77–78
Context-aware theology, 52–54
Conventional or dominating design, 40
COVID-19 impact on Digital Theology, 94
Crafting, 106–108
Creating, 106–108
Creative faith communities, 41

Creativity of God, 41
Crowd-sourcing theology, 41–43
Cultural appropriation, 48
Culture of fear, 38
Cyberchurches (*see* Online-only churches)

Data science, 50, 81
Data-driven approach, 10*n*6
Demonisation, 10, 110
Dependence, 109–112
Depression, 33
Descriptive statistics, 64–65
Design science, 75–76
  research, 62–63, 75–76
Dialogue, 123*n*7
Digital congregation, 127
Digital connectivity, 110
Digital feedback service, 39
Digital parishioner, 128
Digital presence, 21
Digital religion, 1
Digital sacred reality, 37–38
Digital sacred space, 36–37
Digital solutions orientation, 62–63
Digital technology, 42
Digital theologian, 5, 127
Digital tools, 4, 7, 10, 48, 91–92, 97
Digital transformation shapes Digital Theology, 5–6
Digital worship, 38, 119
Digitalisation, 34, 116
Digitisation, 116
  of offline texts, 23
  in theology, 5–6
Duolingo apps, 30

E-confession app, 113
e-fying, 55–56
e-Leadership at church, 56
e-Learning, 107
e-Theology, 55–56
Economy, 102–103
Ecumenism, 48, 102–103
Efficient cause, 57
Emancipatory orientation, 63
Emojis in religious discourse, 27–28
Emoticons, 54–55
Encyclopaedia of Digital Theology research methods, 63
  case studies, 74
  design science, 75–76
  ethnographies, 69–71
  focus groups, 68–69
  grounded theory, 71–72
  machine learning, 65–67
  mixed methods, 76
  observation-based methods, 75
  phenomenography, 71
  qualitative interviews, 67–68
  qualitative surveys, 72–73
  quantitative surveys, 63–64
  social media research, 76–81
  statistical analyses, 64–65
Enterprise resource planning system (ERP system), 44
Epistemology, 98–99
Ethnographies, 69–71
Ex nihilo, 41
Exegetist, 120
Experimentation, 118–119
Exploration, 118–119
Extended reality church, 20–22
Eye tracking, 50, 60*n*19

Faith
  in God, 36
  in technology, 1
Faithful innovation, 40
Final cause, 57
Focus groups, 68–69
Foresight, 122*n*3
Formal cause, 57
Freedom, 109–112
Freedom of information (FOI), 102

Fundraising, 50
Future of Digital Theology, 91
  agents and origins of change, 96–98
  complexities of drama, 106–114
  computer scientist challenging theologian, 119–121
  factors shaping, 91–95
  key resources in economy and Oikoumene, 102–105
  narrative of interplay of tensions, 95–117
  paradigm shift, 121–122
  real-life laboratories for designing Digital Theology applications, 117–119
  representing and naming reality, 98–102
  setting scene, 96–105
  tasks of Digital Theology in foreseeable future, 117

Game dynamics, 53
Game mechanics, 53
Gameplay, 53
Gamification missiological awareness, 53–54
Geospatial analysis, 78–79
Glocal congregation, 47–49
Grounded theory, 71–72

Holy Communion, 100–101
Holy Ghost Church in Turku, Finland, 21
Home, 114
Human existence modes, 106–109
Human language technologies for intra-and extra-church encounters, 52
Humane technology, 3
Hypothesis testing, 64–65

IBM SPSS, 81
Illiteracy, 54
Imago Dei, 109, 117
Inclusive church, 55
Incremental innovation, 39
Independent-samples *t*-test, 65
Inferential statistics, 64–65
Informal education, 58–59*n*8
Information and Communication Technologies for Development (ICT4D), 122*n*1, 125*n*21
Information technology (IT), 1
Innovating or innovative theology, 38–41
Inreach, 59*n*10
Inter-X design, 55
Interactive technology, 34
Interactive Theology designer, 5
Internet addiction, 33
Internet churches (*see* Online-only churches)
Internet of Things (IoT), 58*n*3, 100
Interpretive orientation, 62
Islam, 7, 52

Judaism, 7, 52

Knowing, 56, 106–108
Knowledge, 6, 25, 30, 38, 44, 50, 52, 56, 124*n*14
  tree of knowledge of good and evil, 112–114
  workers, 106
Kuhnian paradigm shift, 121–122

Last mile, 110
Learning, 106–107
  analytics, 50
  programming, 123*n*9
Legacy system, 40, 58
Legal compliance, 84
Life before death, 27, 88
Linux operating system, 39

Long walk to freedom, 115
Love and Sex with Robots, 124*n*18

m-Pilgrimage, 46
Machine learning, 30, 52, 65–67, 81
Making, 104, 106
  decision, 7
  meaning making of faith, 27
Matching algorithms, 50
Material cause, 56–57
Megatrends, 92–93
Messy church, 89*n*2
Missio Dei, 45, 117–118
Missiology, 44, 52, 120
Mission by mobile congregation, 45–46
Mixed methods, 76
Mobile technology, 42, 44–45
Mobile theology, 44–46

Naïve Bayes algorithm, 66
Non-formal education, 58–59*n*8
Novel technology, 40
Null hypothesis, 64–65

Observation-based methods, 75
Obtrusive design, 58–59*n*8
Online bible technology, 88–89
Online Christian communities, 19–20
Online Christian dating, 25–26
Online church services, 17–19
Online theology vocational training, 29–30
Online-only churches, 19
Ontology, 16, 52, 120
Open government data (OGD), 50, 102
Open innovation process, 39
Open problem solving, 41

Paul Tillich's method of correlation, 4–5
Phenomenography, 71
Pilgrimages, 46
Pioneer church, 89–90*n*3
Place, 36
Post-positivistic orientation, 62
Power issues, 6–7
Practical theologian, 120
Preacher, 39
Purpose Driven Church, 59*n*11
Python software package, 81

Qualitative coding process, 66
Qualitative interviews, 67–68
Qualitative surveys, 72–73
Quality in Digital Theology research, 82
  ethical principles, 83–89
  quality assurance, 83
Quantitative approach, 62
Quantitative surveys, 63–64

R software package, 81
Radical innovation, 39
Real-life laboratories for designing Digital Theology applications, 117–119
Reality, 36
Relevance, 114
Research, development and innovation (RDI), 6, 61, 120
Research digital theology, 61 (*see also* Social media research)
  data collection and analysis, 81–82
  digital solutions orientation and design science research, 62–63
  emancipatory orientation and action research, 63
  encyclopaedia of Digital Theology research methods, 63–81

ensuring quality in Digital Theology research, 82–89
interpretive orientation and qualitative approach, 62
(post-)positivistic orientation and quantitative approach, 62
software development, 82
tools, 81–82
Road, 114–115

Sacred place, 37
Sacred reality, 37
Sacred space, 37
Science, technology, engineering and mathematics (STEM), 54, 60*n*24
Second Life might, 29
Sentiment analysis, 79–81
SentiStrength, 80
Sex robots, 108
Silence, 37, 107, 124*n*15
Silicon Valley, 33
Slavery, 109–112
Social Dilemma, *The*, 10, 33
Social media research, 76
content analysis, 77–78
geospatial analysis, 78–79
sentiment analysis, 79–81
Space, 36, 38
physical, 36
sacred, 7, 24
Spiricons, 55
Spirituality, 33, 41, 52
Statistical analyses, 64–65
STEAM education, 54, 60*n*24
Storytelling app, 45–46
Structured data, 10*n*6
Sustainability, 46, 105, 115
Sustainable religious literacy app, 47
Sustainable technology, 46–47
Sustainable theology, 46–49
Systematic theologian, 120

Tasks of Digital Theology in foreseeable future, 117
Tech, 33
Technology, 1, 6–7, 34–35, 41–42
attributes shaping expectations from Digital Theology, 35
examples of changing role, 108
fluidity, 108
Theologia viatorum, 44
Theologians, 4, 9, 30, 44, 54, 120
Theology, 51
artificially intelligent, 51–52
big data, 49–51
Christian, 1, 6
context-aware, 52–54
e-Theology, 55–56
innovating or innovative, 38–41
mobile, 44–46
ubiquitous, 34–38
universal access, 54–55
Transparency of automatic reasoning, 51
Tree of knowledge of good and evil, 112–114
Triple helix innovation model, 39
Trust-based leadership, 56
Turing Test, 31*n*1

Ubiquitous theology, 34–38
Ubuntu, 3, 107–108
United Nations' goals for sustainable development (SDGs), 46–47
Universal access theology, 54–55
Urbi et orbi, 115

Virtual reality, 33
church, 20–22
representation of tour, 105

Weka, 81
WordDive apps, 30

Working, 106, 111
World Wide Web consortium (W3C), 60*n*25

YouTube, 30
YouVersion, 23–24

Zone of proximal development, 115
