

INDEX

- African American male murder rates, 147, 148
 - Age-adjusted suicide rate, 97–99
 - Age-graded theory, 16
 - “Aging boomers” theory, 139
 - Akathisia, 78
 - American Association of Public Opinion Research (AAPOR) guidelines, 40
 - Anti-Black force, 150
 - Atypical neuroleptics, 78

 - Black masculinity, 210
 - Brown’s social economic status, 216–217

 - Centers for Disease Control and Prevention (CDC) study, 103
 - National Center for Injury Prevention and Control, 138
 - technical package, 114, 115
 - Cigarette smoking
 - arrest rates and histories, 46
 - blood-borne illnesses, 36
 - chronic health conditions, 36
 - criminal justice system, 36
 - drug-related charges, 36
 - Eighth Amendment standard, 46, 47
 - health-care staff, 49
 - incarceration
 - and oral health, 37–39
 - and physical health, 37
 - limitations, 47
 - methods
 - criminal justice, regression analysis, 43–45
 - data collection, 40
 - dependent variables, 40–42
 - descriptive characteristics, 43
 - independent variables, 40, 42
 - linear regression analyses, 42
 - multinomial logistic regression, 42–43
 - National Survey of American Life (NSAL), 40
 - ordinary least squares regression analysis, 42
 - self-rated health, 43
 - sociodemographic characteristics, 42
 - Taylor expansion
 - approximation technique, 43
 - multiple chronic health problems, 46
 - prevention and treatment, 36
 - risks and resources, 48–49
 - smoking relapse, 47
 - treatments, 47
- Collective consciousness, 187, 188, 202
 - black communities, 196
 - characteristics, 191
 - definition, 191
 - fatal incidents, 194
 - Grand Rapids Police Department, 197
 - health issue, 198–201
 - information and autopsy reports, 191
 - law enforcement, 197
 - negative health outcomes, 195

- organic solidarity, 193
 - systemic police terror, 192, 193, 197
- Connectedness, 116
- “Crack is wack” thesis, 140
- Cultural social isolation, 24
- Culture-specific beliefs, 113
- Death penalty, 136
- Diagnostic and Statistical Manual of Mental Disorders, 77
- Drug-induced parkinsonism, 78
- Eighth Amendment standard, 46, 47
- Electroconvulsive therapy, 78
- Emotional labor and emotion work, 187–188
 - management of, 189
 - negative health outcomes, 187
 - policing outcomes, 188
 - social structure, 190
- Emotional trauma, 76
- Fear-inducing behaviour, 84
- Federal Bureau of Prisons, 38
- Federal Communications Commission, 18
- Ferguson Police Department, 210
- Fragile Families and Child Wellbeing Study, 19
- Framing physicality and public safety
 - Black masculinity, 210
 - Brown’s social economic status, 216–217
 - content analysis, 213
 - death rates, 208
 - exclusion criteria, 216
 - Ferguson Police Department, 210
 - frame analysis, 214–215
 - health consequences, 208
 - hegemonic masculinity, 213–214
 - intersectionality, 213
 - Lexis Nexis database, 215
 - limitations and strengths, 224
 - mass media, 214
 - media framing, 214
 - NVivo 10 qualitative analysis software, 216
 - policing and black men, 210–212
 - race-police-perception-health-status feedback loop, 209
 - social science literature, 222
 - socioeconomic background, 221
 - Wilson’s social, economic status, 217–218
 - Wilson’s testimony, 219–221
 - working-class neighborhood, 222
- Gatekeeper training, 116–117
- Gendered racism
 - criminal justice outcomes, 157
 - cultural forces and mechanisms, 157
 - federal database, 156
 - institutional racism, 160–161
 - Mapping Police Violence, 156–157
 - negative race- and gender-based stereotypes, 159
 - public safety and public health, police role, 161–163
 - racial ideologies, 158
 - racism, definition, 158
 - stereotypes and myths, 158
 - structural racism, 158
 - unarmed Black men, police-involved shootings, 156
 - criminal justice system, 165
 - decision-making, 166
 - “fear of life”, 165
 - inequities, 163
 - Universal Declaration of Human Rights, 164
 - violent responses, 165
 - unarmed White Americans rate, 157
- Grand Rapids Police Department, 197
- “Happy pill thesis”, 139
- Homicide death
 - “abortion filter”, 139

- African American male murder rates, 148, 149
- African Americans populations, 142, 143
- “aging boomers” theory, 139
- anti-Black force, 150
- Black gender gap, 135
- cause, 129, 130, 136
- CDC’s National Center for Injury Prevention and Control, 138
- crime rates, 140, 141
- dead and missing black babies
 - abortions *vs.* US population, 132
