INDEX

Abstract empiricism, 3–4
Abstract interpretivism, 3–4
Actualism, 127
Actualist comparison, 101
Agency, 80–83
Aleatory materialism, 94
Anthropocene, 75
Anti-essentialism, 138
Antiutilitarian movement in social sciences (MAUSS), 75, 79
Articulatory fixation, 96, 98, 103, 109
Assemblages, 90, 91, 104, 107
  coherence of assemblages, 107
  comparing and applying, 108–111
  poststructuralism, 104–105
Autism spectrum disorder (ASD), 109
Autocratic regimes, 74

Butler, Judith, 106, 142

Capitalism, 98
Causation, 26, 98, 103, 127
  causal mechanism, 27
  causal structures, 100
  covering law, 26
  regularity theory of causation, 25–26
Communication, 81, 82
Conjunctures, 91, 92, 99
  Althusser, Louis, 93–96
  axes, 92
  comparing and applying, 108–111
  constant conjunctions, 90
  critical realism, 99–103
  reviewing, 103
  Sahlins and Sewell, 96–99
Context of discovery, 52
Context of justification, 53
Contingency, 145
Convivialism, 86
Cradle of social science, 122–124
Critical ethical naturalism (CEN), 124–129
Critical realism (CR), 5, 6–8, 15, 19, 24, 28, 33–36, 40, 73, 79, 99–103, 124–129
  depth realism, 100
  determination of events, 100
  historical implications, 30
Critical theory, 11, 75, 79, 133–137, 149
Critique, 121–122, 134, 137–140
Cultural/culture, 80–83, 82
  features of structural dynamics, 97
  relativism, 125

Data analysis, 62–63
Data sampling, 62
Demi-regularities, 127, 145
Denaturalization and reflexiity, 137
Developmental historical idealism, 77
Developmental sociology, 76
Divorce, 57–60, 61–62, 66
  research, 64
Dogmatism, 49, 54, 65, 69, 133
Double articulation, 104
Dream thoughts, 101
Durkheim's methods, 124
Durkheim's social realism, 124

Emergence, 32, 101
  diachronic emergence, 32, 37
  downward causation, 5, 36–37

epistemological emergence, 32
ontological emergence, 37
relational emergence, 38
strong emergence, 32
supervenience, 41
synchronic emergence, 32, 33
weak emergence, 32
Emotional experiences, 55–56
Essentialism, 130
Ethics, 68, 80, 82, 83
Eudemonia, 76, 79
Eventfulness, 92, 98
Existentialism, 79, 139

Fact-value dichotomy. *See* Value Neutrality
Falsification, 26, 90
Feminist theory, 48, 54, 57–64, 82
Fruitfulness, 66–67
Functionalism, 24, 83

Gadamer, Hans Georg, 76
Genealogy, 122–124
Grand theory, 29

Habermas, Jurgen, 75, 82
Hermeneutics, 78, 82
Historical materialism, 95
Historical sociology, 19, 23–24, 31–38
Human flourishing, 76, 80
Human nature, 75, 78, 81, 128, 129, 130, 131, 145, 146
Hypercritique, 75, 76

Induction, problem of, 26
Instrumentalism, 52, 54–55, 75
Intersubjectivity, 81, 82

Judgmental relativism, 54, 137

Language, 81
Late modernity, 74
Legitimacy, 65–66
Logic of theory, 13–15
Looping effects, 110

Marxism, 76
capitalism, 93
framework, 96
Marx's utopian vision, 123
structuralism, 75
theory of "bourgeois revolution", 41
Materiality, 103, 146
Metatheory, 13–15, 17, 78–80
metareflexivity, 76, 84, 85
metatheoretical reflexivity, 18–19
Method of difference and similarity", 24–25
Methodological individualism, 31–38, 81
"Microfoundations", 36–37
"Middle-range theories", 29
Modernity, 51
postmodernity, 74, 84
second postmodernity, 74
Morphogenesis, 36, 77, 83

Naturalism, 78, 121–124, 129
human nature, 130
ontology, 131–132
Neo-Critical Realism (NCR), 27–28, 29
Neutrality, 50, 53
Non-observables, 34
Normativity, 119, 121
normative authority, 67
normative classes, 78, 79
normative professionalism, 84, 85–86
normative projects, 140

Ontological/ontology, 13–15, 78, 83–86
background assumptions, 16, 58

commitments, 17
onto-epistemological class, 78, 79
place of, 15–17, 20
presupposition neutrality, 67

Phenomenological hermeneutics, 78
Philosophical idealism, 76
Philosophy, 16, 17, 78
Physicalism, 41
Politics, 56, 73
Positivism, 19, 36, 78, 81, 90
positivist and realist approaches, 24–31
reduction and emergence, 31–38
Post-capitalism, 84, 86
Post-Habermasian moral philosophy, 81–82
Poststructuralism, 82, 91, 106
Pragmatism, 77
Process theories, 27, 29
Psychoanalysis, 84, 95
Psychology, 77
psychological argument, 56
psychological mechanism, 51

Quantitative social science, 3, 62
Queer theory, 140–150
Quinean holism, 49

Rational-choice theory, 31, 34
Realism, 122–124
realist approaches, 24–31
realist sociology assumption, 4–5
depth-realist comparison, 101
Reconstructive social theory, 75–81, 82
conjuncture, 73–74
intersectionality of vulnerabilities, 74–75
metatheory, 78–80
social theory, 80–83
sociological theory, 83–86
Regularity theory of causation, 25–26
Regulatory fictions, 148
Research
conceiving of object of inquiry, 59–61
data analysis, 62–63
data sampling, 62
deciding end of analysis, 63–64
deciding of data collection, 61–62
drawing conclusions, 64
framing research questions, 58–59
orientation to background interests, 58
quantitative social science, 3, 62
research design, 66
stages, 57–58
survey research, 24
Retroduction, 28
Revolution, 86

Sahlins's theory of structure of conjuncture, 97
Sapere aude formula, 133
Science, 8, 50, 51, 52, 53, 68
causal explanations, 3
research programs, 65
"the scientific method", 3
social sciences, 78
Self-interpretations, 61
Skocpol's theory of social revolutions, 28, 29, 36
Social change, 80–83, 107
Social Darwinism, 36
Social development, 83
Social formations, 90, 94
Social pathologies, 84
Social structures, 15, 28, 35
structural entities, 103
structural mechanisms, causal power of, 101–102
structural theories, 29–30

Social theory, 6–8, 9, 10–11, 12, 83–86
  abstract empiricism, 3–4
  assumption of realist sociology, 4–5
  "call of crisis", 3
  contemporary definitions, 8–12
  critical realism, 6–8
  logic of theory, metatheory, and ontology, 13–15
  metatheoretical reflexivity, 18–19
  place of ontology, 15–17, 20
  positivism, 19
  social ontology, 15–17, 20, 141
  theories of middle range, 4
  theory, 6–8
Sociological explanations, 29
Sociological positivism, 27
Symbolic violence, 82

Thick evaluative concepts, 60
Threshold, 107
Tipping points, 107, 111
Traditional ethics, 82–83
Traditional family
  model, 61
  values, 58, 68
Transformative theory, 77, 83, 84

Underdetermination, 48–49

Value neutrality, 68, 125
  bidirectional influence of facts and values, 57–64
  cognitive values, 50
  evidence for value judgments, 53–57
  legitimate use of value judgments, 64–69
  noncognitive values, 52–53
  orthodox case for value-neutral science, 49–57
  unconditional value, 68

Weber, Max, 51, 52, 81
