

INDEX

- Administrative entities, 140
Adult male annual consumption
 baskets, 11
Agricultural/agriculture, 139,
 142–143
 national value added by
 agricultural subsector, 179
 production, 83
 regional value added estimation in,
 178–183
Aldrich Vreeland Act (1908), 100
Alpine region's productivity gap
 decomposition, 158–160
Amalgamated Copper, 112
American financial firms, 112–113
Anatomical method, 73–74
Anglo-Saxon population, 82
Animal husbandry, regional data on,
 179
 beehives and chicken, 180
 bovines to slaughtered, 180
Annual saving, 43
Archeologists, 73, 75, 77, 82, 90
Artisan's Order of Mutual
 Protection, 54
Average productivity, 123, 160–162

Bank
 assets, 102
 liabilities, 102
Bank of Chile, 112
Bank of England, 101, 103, 113
Bank of England rate (BER), 102,
 113, 115, 116, 120, 147
Bank of Japan, 110–111

Bare bones
 estimate, 3–4, 9–10
 index, 9
Bassins d'emploi regions (BE regions),
 140, 171, 177
Battle for cultivation, 181
Beans, 6
Bell-shaped curve, 162–164
Bell-shaped evolution, 145, 148
Bioarcheological data, 70, 73
Black Death, 84
Blue-collar workers, 68
*Boletim do Departamento Estadual de
 Trabalho* (BDET), 5–6
Boom/bust pattern, 107, 120
Brazilian/Brazil, 2
 coffee valorization scheme, 13
 labor market, 3
 municípios, 3
Bread, 8
British regional inequality, 147–148
Brown rice, 7
Building association, 56, 58

Cantons, 136, 137, 140, 154, 156, 157,
 170, 171, 183
Capital, 155–156
 capital-intensive operations, 122
 market imperfections, 47, 50
Carroll Wright's admonition, 41
Cash holdings, 43
*Centro de Documentação
 Informação Científica*
 (CEDIC), 27n12
