

Subject index

- age 34
- anomie 42
- behaviour
 - norm-free 12
 - norm-guided 12
 - rational 9, 12
- characteristics
 - acquired 29
 - constitutional 29
- choice
 - norm-free 10
 - rational 10
 - rational, limits of 18, 23
- class 36
- clear-up elasticity 189, 205, 215
- clear-up tendency 189
 - distribution 191
- crime tendency 189
 - distribution 191
- criminometric studies 115
 - cross section, Norway 177
 - latent variable 187
 - panel data, Norway 187
- cross section studies 118
- culture conflict 41
- cultural deviance 43
- desires 14
- determinants of crime 103
 - effects 154
 - effects of income variables 160
 - effects of norm variables 162
 - effects of punishment variables 155
 - effects of taste variables 162
 - empirical measures 169
- deterrence elasticity 189, 205, 215
- drugs 36
- embezzlement 233
- forgery 228
- fraud 233
- gender 33
- identification 93
- impulsiveness 32
- incapacitation 98
- intelligence 35
- larcenies
 - aggravated 236
 - simple 236
- libel 233
- measurement errors 100
- models of crime
 - errors of specification 109
 - expected utility 47
 - individual behaviour 90
 - labour supply 49
 - macro 89
 - mathematical specification 99
 - micro 89
 - non-monetized attributes 65
 - portfolio 48, 53
 - time allocation 57
- motivation 25
- offence
 - damage 236
 - personal liberty 228
 - violence 233
- offender
 - norm-guided 8
 - rational 8
- preferences 10, 14
 - unstable 21

- prevention
 - general 26
 - individual 26
- public disorder 224
- race 36
- rationality
 - bounded 20
- risk 77
- routine activity 167
- sanctions 26
- satisficing 9
