

# INDEX

- Academic achievement, 50–51,  
149–150
- Academic Competence Evaluation Scales (ACES)*, 116
- Accessibility, 32, 51, 118
- Acquisition and performance deficit classification model (APDCM), 114–115, 117
- FBAAs, 116–117
- skill-based adaptation, 115–116
- Actual intervention protocols, 67
- Adaptive Tier 2 behavioral intervention, 113
- APDCM, 115–117
- approach to adaptation, 113–114
- decision rules, 120
- domain-based approach, 114
- measurement, 118–119
- methods to provide, 117–118
- questions to address, 115–117
- rates of behavior function, 118
- training and demands on staff, 119
- Alphabet knowledge, 154–155
- Ambiguous standards for progress, 197–199
- Analytic code, 66–67
- Arcuate fasciculus (AF), 81–82
- Arousal/modulatory systems, 130–131
- Artificial intelligence (AI), 126–128
- Artificial reproductive technologies (ART), 128–130
- Attention-deficit hyperactivity disorder (ADHD), 129
- Autism Rights Movement (ARM), 129
- Autism spectrum disorders (ASDs), 6, 129, 149–150
- better understanding of classroom environment, 164
- connection between emergent literacy and later reading outcomes, 162–163
- future research in reading with individuals with ASD, 162–166
- oral language and listening comprehension, 152–153
- reading development in elementary, middle, and high school, 156–159
- reading development in individuals with, 151–154
- reading skill heterogeneity, 152
- social communication, 153–154
- specific comprehension skill difficulties, 160–162
- specific reading subcomponent skills, 154–156
- specific research on comprehension deficits, 163–164
- testing efficacy of dual-purpose interventions, 164–166
- Balanced literacy approach, 197
- Behavior Assessment System for Children, Third Edition (BASC-3)*, 114
- Behavior Education Program, 112
- Behavioral-emotional proclivities, 129–130
- Blood-oxygen-level-dependent signals (BOLD signals), 77, 82
- Bronze OA, 69–70
- Callosal connection (CC), 81–82
- Charter schools, 2
- Check-in/Check-out (CICO), 112
- Child psychiatry, 130
- Chronic depression, 129

- Classroom teachers, 119
- Classroom Teaching Scan (CT Scan), 101, 105
- Codebook, 66–67
- Cognitive behavioural therapy (CBT), 131
- Cognitive systems, 130–131
- Collaborative support, 186
- Communication, 38–39, 43
- Comprehension skills, 153
- Comprehensive Test of Phonological Processing (CTOPP), 156
- Contemporary research, 63–64
- Content Acquisition Podcast Professional Development (CAP-PD), 105
- Content Acquisition Podcasts for Teachers with Embedded Modeling Videos (CAP-TV), 101–102
- Content Acquisition Podcasts–Teacher Slides (CAP-TS), 105
- Convergent design, 57
- Cost-effective processes, 184
- Council for Exceptional Children (CEC), 29–30
- Credibility, 39
- Curriculum-based measurement (CBM), 21, 54–55, 120, 183
- Data
  - data-based individualization in, 184
  - privacy, 140–143
  - sharing, 66–67
  - utilization, 22–24
- Data-Based Instruction (DBI), 182–183
- Dataverse, 67–68
- De minimus*, 11–12
- Decision rules, 120, 183
- Deficit-based instruction, 116
- Depressive disorders, 132
- Devereux Student Strengths Assessment (DESSA)*, 116
- Diagnostic and statistical manual (DSM), 129–130
- Diffusion MRI (dMRI), 77, 80, 82
  - in dyslexia research, 81–82
  - works, 80–81
- Diffusion tensor imaging (DTI), 80, 82
- Digital object identifiers (DOI), 66–67
- Direct Behavior Rating scales (DBR scales), 20–21
- Direct Instruction (DI), 195
- “Disability chic”, 129
- Disabling anxiety, 129
- Distance-learning modes, 184
- Diverse educational needs, 196
- Domain-based approach, 114
- Dual-purpose interventions, testing efficacy of, 164–166
- Dyslexia
  - better prediction of dyslexia risk using machine learning, 89
  - dMRI in, 81–82
  - ERP in, 83–85
  - etiology of, 86–87
  - fMRI in, 82–83
  - sMRI in, 80
- Early writing intervention, innovations in
  - handwriting strategies, 176–177
  - innovative approach for preparing teachers to teach writing to students, 182–186
  - research-based instructional approaches for students with intensive needs, 175–180
  - sentence writing strategies, 178–179
  - spelling strategies, 177–178
  - SRSD, 179–180
  - SVW, 174–175

- teachers currently learn to teach writing, 180–181
  - teachers currently teach writing, 181–182
- Early Writing Project, 184
- Eclectic approaches to instruction, 197
- Education, 61–62
- Education of All Handicapped Children Act, 9–10
- Educational neuroscience, 76
