

INDEX

- Abduction, 5
- Accumulation, 172, 175–176
- Agentic view of evaluated firms, 5
- Alliances, 145
- American College and University Presidents Climate Commitment (*ACUPCC*), 59
- Andromeda, 263–266
- Appropriation, 97
- Arizona State University (ASU), 32–33
- Artificial intelligence (AI), 11–12
- Asset4 database, 123
- Association for the Advancement of Sustainability in Higher Education (AASHE), 53
- Audiences, 3, 276–278
- Authentic firms, 99
- Authentic latecomers, 102–103
- Authenticity, 93–94
 - insecurity, 108
- Backdating options, 217
- Behavioral theory of firm, 218–219
- Beneficial nature, 172
- Benefits
 - of corporate misconduct, 216–219
 - of reputation, 175–176
- Big Down, The*, 19
- Binding commitments, 276
- Biotechnology, 11–12
- Blockchain, 11–12
- Building theory, different ways of, 4
- California banks, 98
- Campus and Environmental Responsibility, The*, 53–54
- Capacity-related actions, 153
- Categories, 2, 276, 279–280
- CBEN, 30
- Centers for Nanotechnology in Society (CNS), 32–33
- Ceremonial adoption, 190–191
 - of certifications, 193
 - of voluntary standards, 193–194
- Certifications, 190
- Co-occurrence data, 23
- Codification, 172, 175–176
- Cognitive legitimacy, 97
- Collaborative dynamics, 143–144
- Collaborative sensemaking, 251–252
- Collective action, 80
- Collective penalties, 224
- Commitment, 276
- Competition for audiences in voluntary standard adoption, 192–194
- Competitive intensity, 153
- Competitive stability, 146
- Competitors, 142
- Complex decision-making process, 280–281
- Cooperation, 142
 - among competitors, 145–148
- Coopetition, 141–142
- Coping with legitimacy crisis, 29–30
- Corporate liability, 223–224
- Corporate misconduct, 212–213, 280–281
 - benefits of, 216–219
 - detection of, 219, 221, 227–228
 - penalties of, 221, 226, 228–229
 - perceived benefits, 226–227
 - RCM of, 214–216
- Corporate practices, 212
- Correlational class analysis, 116

- Credibility loss among powerful infomediaries and increasing stakeholder empowerment, 180–181
- Cultural appropriation, 96
- Cultural entrepreneurship, 12
 - frame hegemony, 33–34
 - key events, 25
 - and legitimation challenges, 15–17
 - naturalizing nanotechnology field, 24–33
 - naturalizing radical innovation through, 34–37
 - research context, 17–19
 - research methods, 19–24
 - theoretical motivation, 14–17
- Data analysis, 22–24
- Data sources, 20–22
- Decision implementation, 48–49
- Defense-oriented biotechnology, 238–239
- Defense-oriented IT, 238–239
- Democratizing appropriators, 103–104
- Density dependence, 93–94
- Department of Transportation (DOT), 149
- Designer Shoe Warehouse (DSW), 120
- Detection of corporate misconduct, 219–221
- Digitalization, 13–14
- Diversity, 49, 280
- Dynamic capabilities (DCs), 236
 - data analysis, 243–244
 - data collection, 239–243
 - development, 237
 - leaders' attitude toward change, 260–263
 - methods, 238–244
 - micro-foundations of sensing, seizing, and reconfiguring, 244–260
 - process foundations, 268–269
 - strategic leaders' temporal orientation, 269–270
 - theoretical model of process foundations, 263–266
- Dynamic managerial capabilities (DMCs), 236, 238
- Economic rationality, 214
- Economic sociology, 141–142
- Eigenvector algorithm, 126–127
- Energy consumption standards, 190
- Energy Star standard, 194–195
- Entrant nonconformity, 150
- Environmental, Health and Safety (EHS), 22–23, 29
- Environmental Defense Fund, 33
- Environmental Protection Agency, 18
- Environmental sustainability, 280
- Equal employment opportunity and affirmative action (EEO/AA), 50–51
- Equality, 49, 280
- ETC Group, 17–18
- Ethical, Legal and Societal Issues (ELSI), 22–23
- Euclidean distance, 150–152
- Evaluation, 3–4
- Field analytic study, 19
- Field theory, 141–142
- Field-configuration space, 49–50
 - qualitative data and methods, 62–75
 - qualitative findings, 64–75
 - quantitative data and methods, 55–60
 - quantitative findings, 60
 - as sites for concretizing moral mandates, 52–53, 80–81
 - sustainability in higher education, 53–55
 - theory, 50–53
- Field-level process model, 79–80
- Financial misconduct, 223
- Firm behavior, 214
- Firm DCs, 267–268

- Firm identities, 276
- Firm reputation, 171–172
- Firm similarity, 116–117
- Firms, 3, 115–116, 120, 142–143, 212–213
- Fixed-effects panel regression techniques, 154
- Fortune's Most Admired*, 175
- Frame brokers, 30–31
- Frame hegemony, 33–34
- Frame relationality, 30–33
- Fraudulent firms, 221
- Fraudulent innovators, 101
- Friends of the Earth, 17–18
- Fruchterman–Reingold layout algorithm, 126
- Full-service incumbents, 153
- Full-time equivalent (FTE), 58

- Genetically modified organisms (GMOs), 15
- Geographic proximity, 145
- Gravity model, 152
- Green Building Information Gateway (GBIG), 194–195
- Green school forum as field-configuring space, 53–54
- Greenpeace, 17–18

- Herfindahl–Hirschman Index (HHI), 152
- Hype, 11–12
 - and impact of legitimacy threats on innovations, 14–15

- Identity, 6, 276–277
 - boundaries, 2
- IKEA, 193
- Inauthentic First Movers, 100–101
- Incumbents, 146–147
