

INDEX

Note: Page numbers followed by “*n*” indicate notes.

- Academic point of view in IR, 114–120
- Accounting and reporting framework, 84
- Ad hoc metrics, 20–21
- Aggregated report, 127
- Annual Report (*see* Integrated Annual Report (IAR))
- Autorités des Marchés Financiers (AMF), 45
- Backward-looking, 154
- Breusch-Pagan test, 161–162, 173–174
- Business
 - activities, 87
 - case, 116
 - model functioning and positioning, 87
 - AND society, 30
 - IN society, 30
- Cannibalization, 137
- Capital goods, 85
- Capital, 88, 99
- Causal links, 99–100
- CFIE, 26
- Circular economy, 84–87
 - circular economy-related activities, 93
 - utility in circular economy context, 101–102
- Coding technique, 92
- Companies’ point of view in IR, 124–136
- Comparability, 22, 25
- Complexity management of CSR, 39–40
- Computer-assisted qualitative data analysis software (CAQDAS), 153
- Connectivity, 119–120, 123–124
- Content analysis, 57, 62–63, 153
- Contested concept, 109, 136–137, 140
- Corporate citizenship (CC), 11
- Corporate disclosure tone, 150
- Corporate governance mechanisms, 179–180
- Corporate narrative disclosure tone, 150
- Corporate responsibility (CR), 11
- Corporate social performance (CSP), 1, 10
 - ad hoc metrics, 20–21
 - environmental rating-based metrics, 19–20
 - literature review and data collection, 14, 17–18
 - methodology, 21–23
 - metrics, 15–17
 - reputation rating-based metrics, 19
 - research framework and hypothesis, 13–14
 - results, 23–27
 - social rating-based metrics, 18–19
 - standard fit, 11
 - theoretical framework, 11–13
- Corporate social responsibility (CSR), 11, 38, 84, 148, 177
 - disclosure, 178–180
 - object, 38
- CSID, 18–19, 26

- Data analysis for IR, 153
- Data collection
 - of CSP, 14, 17–18
 - for IR, 152–153
- Degree of “transparency”, 99
- Dependent variable, 185
- Descriptive statistics, 158, 189
- Descriptive studies, 177–178
- Directive 2014/95/EU, 2
- Discretionary disclosure, 150
- Discursive text unit, 154
- Dynamic resource-based perspective, 89–90
- Dynamic resource-based view (DRBV), 85

- Enhanced social report, 129
- ENI, 91–92
 - IR capitals and feedback processes, 97
 - IR outcomes and feedback processes, 98
 - resource map, 95–96
- Environmental, social, and governance (ESG), 5, 9–10, 26, 84, 148
- Environmental and social impact, 96
- Environmental performance, 155
 - and ICD tone in IR, 162
 - and voluntary disclosure tone, 151
- Environmental rating-based metrics, 19–20, 27
- Evaluation, 21–23
- Explicative studies, 178
- Exploitation phase, 43
- Exploitation strategy, 42
- Exploration strategy, 42
- External stakeholders, 148

- Feedback loops, 90
- Feedback process-oriented–tool, 100
- Financial capital, 88
- Financial Markets Regulator (*see* Autorités des Marchés Financiers (AMF))
- Financial performance, 156

- Fixed effects regression (FE regression), 187
- Forward-looking, 154

- Generali, 133–134, 136
- Germany, sustainability reporting in, 59–60
- Global Compact advanced (GC advanced), 44
- Global Reporting Initiative (GRI), 44, 72, 84, 109, 120–121, 127, 180
- Governance and voluntary disclosure tone, 152
- Governance performance, 156
 - and ICD Tone in IR, 163
- Greenwashing, risk of, 49
- Group identity, 134
- Guna (company), 127–129, 136

- Hostile stakeholders, 129
- Human capital, 88, 154

- Idealistic reporting, 49–50
- Independent variables, 186
- Individual level activity, 12
- Individualism, 181
- Inflows, 90
- Institutional level activity, 12
- Integrated Annual Report (IAR), 118, 125
- Integrated report(ing) (IR), 1–2, 84, 87–89, 108–110, 112–113, 118, 148, 176
 - academic point of view, 114–120
 - additional findings, 163–164
 - companies’ point of view, 124–136
 - content analysis results, 157
 - corporate disclosure tone, 150
 - corporate narrative disclosure tone, 150
 - by country, industry, and year, 153–157
 - data analysis, 153
 - descriptive statistics, 158, 189

- discussion, 98–102
- empirical results, 159–160
- enriching with DRBV to support sustainability, 90–91
- environmental performance and ICD tone, 162
- environmental performance and voluntary disclosure tone, 151
- governance and voluntary disclosure tone, 152
- governance performance and ICD tone, 163
- hypotheses, 183–184
- implications, 165
- inferential results, 157–162
- limitations and further research, 102
- limitations and future research avenues, 165
- methodology, 187–188
- multidimensional investigation on journey of, 113–114
- multivariate analysis, 189
- non-financial performance, 150
- panel random effects regression, 190
- research method, 91–92
- results, 92–98
- sample and data collection, 186–187
- sample description, 188
- sample selection and data collection, 152–153
- social performance and ICD tone, 162–163
- soft-regulators' point of view, 120–124
- and SR relationship, 122
- studies on determinants, 181–183
- univariate analysis, 189
- variables, 185–186
- variables definition and measurement, 170–172
- VIF, 173–174
- Integrated Reporting Emerging Practice Examples Database, 152
- Integrated Reporting Scoreboard (IRS), 177
- Integrated thinking, 99
- Intellectual capital, 88
- Intellectual capital disclosure (ICD), 5, 149, 165
 - environmental performance and, 162
 - governance performance and, 163
 - social performance and, 162–163
- International Integrated Reporting Council (IIRC), 1, 84, 87, 89, 109, 120–121, 127, 176
 - compliant by “integrated” annual report, 133–136
 - compliant by “Integrated” SR, 129–132
- Italy, sustainability reporting in, 59–60
- KLD, 24, 30
- La Maison Rémy Martin, 44
- Lay reporting, 49–50
- Legitimacy theory, 151
- Liqueurs et Spiritueux, 44
- Managerial context, utility in, 99–100
- Mandatory disclosure of nonfinancial information, 56
- Mandatory nonfinancial disclosure, 57, 61–62
- Mandatory sustainability reporting, 60–61
- Manufactured capital, 88
- Materiality, 119–120, 123–124
 - analysis, 70
- McNemar's test on single SRQ indicators, 71
- Metrics
 - addressees, 23, 25
 - of CSP, 15–21
- MSCI, 10, 19, 22, 24–25
- Multidimensional analysis of IR, 140
- Multivariate analysis, 189
- National business systems, 184
- Natural capital, 88
- Neutralization, 137

- New Economic Regulations Act* 2001, 61
- Non-financial disclosure, 2
- Non-financial performance, 150
- Non-financial reporting
- guaranteeing inherent issues, 40–41
 - issues, 39
 - managing complexity of CSR, 39–40
 - meeting company's expectations, 41–43
 - Rémy Cointreau case, 43–46
 - Rémy Cointreau singular single-case study, 46–48
- Non-governmental organizations (NGOs), 38
- NRE Law, 38
- Numerical text unit, 154
- Openness, 22, 25
- Optimal reporting, 49–50
- Organizational learning, 42–43
- Organizational level activity, 12
- Outflows, 90
- Panel random effects regression, 190
- Particular content analysis, 192
- Qualitative content analysis, 114
- Random effects regression (RE regression), 187
- Rational myth, 137
- Regression equation, 187
- Relational capital, 154
- Rémy Cointreau group, 43
- presentation and CSR reporting, 43–44
 - structuring and reliability of CSR reporting, 44–46
- Rémy Cointreau single-case study, 46–48
- CSR Reporting Constraints in, 47–48
- Reputation rating-based metrics, 19
- Reputation-based metrics, 24
