

INDEX

- Acceptable shelter, 28–29
- Adaptability, 135
- Adequacy, 31
- Affordable Care Act, 30
- Age-related differences, 8
- Age-related losses, 8
- Aging, 8–9
 - cognitive processes, 12–14
 - and consumer behavior, 18–19
 - sensory functioning, 9–12
- Agricultural technologies, 145–148
 - access and adoption, 134
 - impact on livelihoods, 139
 - women in agriculture, 145–148
- Amazon, 106
- Arkansas, 3, 158, 161
- Arkansas Residential Landlord-Tenant Act of 2007, 160–161

- Basic education, 31
- Behavior, 139
- Behavioral responses to poverty, 161–163
- Botox injections, 105–106
- Brews Less Traveled Beer Club, 104

- Canva, 106–107
- Capability, 135, 144
- Carnival Cruise Line’s comparison tool, 103
- Chronological age, 16
- Classism, 70
- Clothing, 29
- Clothing disposal system, 29
- Cognitive changes in aging, 3–4
- Cognitive load of financial scarcity, 75
- Cognitive sources of vulnerability, 75–76
- Cognitive survivors, 141

- Cognitive-affective development theory, 15
- Cognitive-Experiential Self-Theory (CEST), 114–115
- Commodity logic, 155
- Compensatory consumption, 56
 - and competitive motives, 86
- Consumer behavior, 27
- Consumer information processing, 8, 12
 - aging impairs cognitive processes, 12–14
 - changes in emotional functioning, 14–16
 - elderly consumers, 17–18
 - implications of aging for quality of, 16–17
 - sensory functioning, 9–12
- Consumer research, 155
- Consumer rights
 - awareness, 5
 - enforcement, 156
- Consumer rights and protection
 - access to resources, 135
 - advocacy and empowerment, 145
 - legal frameworks and enforcement, 156
- Consumer vulnerability, 1, 5, 137, 145
 - causes, 157
 - in contexts, 76–78
 - effects, 156–157
 - to eviction, 154
 - management and coping strategies, 155
 - and marketplace solutions, 98–99
- Consumer well-being and social justice, 32
- Consumption adequacy (CA), 26
 - data, methodology, and findings, 32–42

- dimensions, 27–32
- Consumption adequacy, 1–3
- Control, 99
- Coping mechanisms and resilience
 - adaptive behaviors, 87
 - agency and empowerment, 145
 - support networks, 135
- Counterproductive comparison standards, 55
- COVID-19 pandemic, 84, 98
- Decision-making, 2
- Deliberative processing of information, 16
- Digitalization and financialization, 154
 - automated landlord, 157–158
 - digitized property management, 156
 - impact on rental markets, 158
- Discrimination, 70–72
- Displacement, 154
 - mortality and health outcomes, 154
 - neighborhood destabilization, 154
 - threat and materialization, 153–154
- Dual process models, 4, 114–115
- Economic explanations, 157
- Economic factors
 - access to resources, 135
 - income inequality, 134
 - poverty, 134
- Education, 30–32
- Elderly adults, 8–9
- Elderly consumers, 8, 17–18
- Emotion, 139
- Emotional functioning in elderly, 14–16
- Environmental factors
 - climate change and natural disasters, 134
 - sustainability and conservation, 143
 - urbanization and housing markets, 154
- Eviction and housing instability
 - forced displacement, 153–154
 - legal and socio-cultural aspects, 147
 - policy responses and interventions, 154
- Evictions, 154–155, 158
 - behavioral and policy research agenda, 161–163
 - legal and regulatory environment, 158–159
 - process and consequences, 146–147
 - as social problem, 158–161
 - societal and personal impact, 134
- Executive functioning tasks, 12–13
- Experiential system, 114, 116
- Experiential-dominant group, 115
- External influences on decision-making, 4
- Financial deprivation, 86, 88
- Financial vulnerability, 60
 - credit access and debt, 60
 - economic shocks and recovery, 75
 - financial literacy and education, 134
- Floodlight analysis, 40–42
- Fluid compensation, 56
- Food, 27–28
- Foreclosures, 154
- Functionings, 144
- Ghettos, 25–26
- Global and cultural contexts of poverty, 29
- Grade point average (GPA), 53–54
- Gross domestic product (GDP), 44
- Happiness model, results from, 37–40
- Health care, 29–30
- Hearing, 10
- Heuristic versus systematic processing (HSM), 114–115
- High-system group, 115
- Housing, 154
- Housing instability, 153–154

- eviction, 154
- foreclosure, 154
- Human rights
 - commodity vs. rights logics, 155
 - housing as a human right, 155
- IKEA Place augmented reality app, 104–105
- Impact of consumption inadequacy, 31–32
- Impoverished consumers, 25–26
- Impoverished consumption, 43
- Incidental scarcity, 85
- Incongruity, 16–17
- Information processing, 8, 114
- Institutional and interpersonal
 - contexts of eviction, 163
- Insurance, 105
- Interactions among dimensions of consumption adequacy, 144
- Intergovernmental Panel on Climate Change (IPCC), 135
- Intertwined vulnerabilities, case study
 - in, 145–148
 - external factors, 146
 - internal factors, 146–147
- Johnson Neyman plots (JN plots), 40
- Knowledge-based memory, 13–14
- Laissez-faire commodity logic, 161
- Life satisfaction model, results from, 33–37
- Literacy, 30–31, 134
- Long-term memory, 13–14
- Low SCC, 50–51, 59
 - consequences, 59–61
 - implications, 63
 - materialism, 61–62
 - problematic outcomes, 60–61
 - risk factors for, 62
- Low socioeconomic status (low SES), 69–70
 - consequences for low-SES consumers, 72–73
 - consumers' experiences, 70
 - individuals, 2
- Low-cost but adequate (LCA), 27–28
- Low-system consumers, 114–116
 - existence of, 115
- Low-system group, 115
- Management, 1
- Market dynamics and logics, 155
- Marketing, 1, 155
- Marketplace literacy, 137–145
 - education program, 3
 - impact on vulnerability, 145
 - importance, 137–139
 - programs and interventions, 143
- Marketplaces, 141–142
- Materialism, 61–62
- Materialistic behaviors, 51
- Memory, 8
- Mental health and well-being
 - coping mechanisms, 26
 - emotional vulnerability, 136
 - shame and stigma, 136
- Micro approach, 2
- “Mixed messaging” approach, 109
- Motivated activity, 101–107
 - four domains of, 99–101
 - 2 X 2 framework, 99–101
- Motivational threats, 98
 - 2 X 2 framework of motivated activity, 99–101
- Needs, 98
- Negative stereotypes, 71
- Neighborhood destabilization, 154
- Network adequacy, 30
- Nike By You service, 104–105
- Nongovernmental organizations (NGOs), 1–2
- Numeracy, 16, 30–31
- Objective measures, 31

- Older adults, 12–14
- PayPal, 105
- Penalties, 160
- Perceptions of time as limited, 15–16
- Policy and regulation
 - consumer advocacy and
 - legislation, 157
 - rental market regulation, 162
 - tenant protections, 161–162
- Political explanations, 157
- Political polarization, 98
- Positivity effect, 14–15
- Poverty, 1, 30, 69–70, 134
 - consumer vulnerability in contexts,
 - 76–78
 - unpacking, 141–142
- Poverty and deprivation
 - cognitive and emotional
 - constraints, 139
 - multi-faceted deprivation, 134
 - survival strategies, 141
- Power, 1
- Prejudice, 70–72
- Presbycusis, 10
