Adobe Flash, 131
Adobe Photoshop, 131
Afyonkarahisar, 107, 119
Afyonkarahisar Chamber of Commerce and Industry (ACCI), 64–65
Akaike Information Criterion (AIC), 224
Alro SA, 25–26
Alternative media, 129
Altman, Argenti, Conan and Holder models, 22
Altman model, 22, 26
Altman Z-score model, 22
Altur, 25
Alum Tulcea, 25
AML/CTF requirements, 237
Anti-Discrimination Agencies (ADAs), 200
Anti-discrimination law in sports in EU, 194–198
  discrimination in sports, victims of, 199
  discriminative examples in Sports, 198–199
  recommendations for development of EU Sports Policy, 199–200
Asian Financial Crisis, 2
Asset quality, 90
Augmented Dickey Fuller test (ADF test), 8–10, 37–38, 51
Auto correlation function (ACF), 10
Autoregressive conditional heteroskedasticity model (ARCH model), 10
Average variance extracted (AVE), 115
Bank for International Settlements (BIS), 240
Bank size, 238
Bank stability in Latvia, 237–238
  data analysis technique, 241
  data sources, 241
  dependent variable, 238–239
  discussion of key findings, 243–245
  independent variables, 239–241
  panel data analysis, 242–243
  proposals and recommendations, 245–246
  results and discussion, 242
  robustness check, 243
Banking sector, 86–89
Bankruptcy risk analysis, 20
Bankruptcy risk prediction, 20
  literature review, 21–23
  research methodology 23–27
Bartlett's tests, 112, 141
BDS test, 13
BIST Derivative Market (VIOP), 73, 83
BİST-30 conventional index, 4
BIST-30 participation index, 7–8, 13
  ADF test results, 9
  KPSS test results, 10
  return series, 9
  volatility spillover, 14
BIST100 index, 222–223
BootLLCI, 118
BootULCI, 118
Borsa Istanbul (BIST), 62
Brand experience, 109–110
Branding, 106
Bretton Woods System, 58
Breusch–Pagan test, 38
Bucharest Stock Exchange, 20, 25

Bucovina SA Scheia, 25
Businesses, 60, 136
  risk, 237
  search behaviour, 152–154

C2ES, 172
Capital, Asset, Management, Earnings, Liquidity and Sensitivity analysis (CAMELS analysis), 90
  content of CAMELS variables, 89–95
  correlation matrix of variables, 98
  data and method, 95–96
  descriptive statistical values of variables, 97
  literature research, 92–95
  model 2 regression analysis results, 100
  recommendations, 100–101
  regression analysis results, 99
  research findings, 96
  tools, 91
  unit root test results of variables, 98
Capital adequacy, 90, 243
  risk, 238–239
Capital adequacy ratio (CAR), 239, 243
Capital ratio, 239
Carbon tax
  countries in terms of carbon tax rate/revenue/scope, 171
  and miracles for balanced climate and liveable world, 172–175
  multiple policy approach, 176
  opportunities and threats, 173
  solution against climate change, 168–172
Carbon Tax Forum, 172
Career opportunities, 159, 161
Centre for Equal Opportunities and Opposition to Racism (CEOOR), 200
Charnes–Cooper transformation, 208
Chi-square test, 242
χ^2/df ratio, 114
Circiumaru model, 24–26
City marketing, 107–109
Climate change, 166–168
  carbon tax solution against, 168–172
  carbon taxes and miracles for balanced climate and liveable world, 172–175
Commodity markets, 47
  volatility spillover analysis in, 46–54
Community, 180
  communication, 180
  communication tool of, 181
Community media, 180–181
  data analysis methods, 184–185
  data collection techniques, 183–184
  female-oriented non-governmental organisations in Turkey, 181–183
  findings, 185–189
  methodology of research, 183
  sampling design, 184
  validity and reliability, 185
Competitiveness, 159–160
Compliance risk, 238
Composite reliability (CR), 115
Conan and Holder and Circiumaru models, 25
Conan and Holder model, 27
Confirmatory factor analysis, 115–116
Constant returns to scale (CRS), 209
  output-oriented single-stage DEA model, 210–212
Content analysis, 156, 185
  related to job search behaviour, 157–161
Content production factor, 188–189
'Content' and 'Process' theories, 136–137
Contextual performance, 137–138
Control, Ethics and Disciplinary Body (CEDB), 198
Conventional market indices, 6
Converse, 132–133
Copper, 47
Correlated Random Effect-Hausman Test, 242

Correlation analysis regarding variables, 143–144
Court of Arbitration for Sport (CAS), 196–197
Court of Justice of the European Union (CJEU), 196
Credit risk (CR), 237–239, 242, 244
Cronbach alpha value, 65
Cronbach α coefficient, 115, 140
Crowdsourcing (CS), 124
  elements, 131
  Internet technologies and new media, 125–128
  as new media application and characteristics, 129–131
  result, 132–133
  working samples, 131–132
Cumulative abnormal returns (CAR), 222, 224, 226–228

Dafora, 25
Data analysis and findings, 140
  correlation analysis regarding variables, 143–144
  reliability analyses, 141–143
  results of factor analysis, 140–141
  test of hypotheses and regression analyses, 144–145
Data analysis methods, 184–185, 241
Data collection, 111–112, 138–139, 183–184
