

INDEX

- Accounting, 146
- Actual economic activity, 175
- Administrative security controls in SME, current state of, 35–37
- Africa, effect of COVID-19 debt accumulation, 165
- Agriculture, 133
- Alternative finance models, 102
- Amazon (technology company), 98
- Annual appraisals, 252
- Anti-black Money Act (2015), 126
- Anti-money laundering (AML), 60, 172
- Apple (technology company), 98
- Artificial intelligence (AI), 23, 85–86, 172, 217, 244, 252–253
 - ability of AI and SA to improve PM systems, 257
 - application of AI and SA in business processes, 255
 - automating PM Systems, 259–261
 - in business processes, 255–256
 - classification models to predict employee performance, 257–259
 - classification of AI, based on capabilities, 253–254
 - classification of AI, based on functionality, 254
 - competition, 219
 - demographics of customers, 219
 - drivers of digitisation and AI in retail, 218
 - in HR management, 259
 - limitations of AI and SA in PM systems, 261–262
 - for mapping cybersecurity controls for SME, 46–48
 - in PM systems, 257
 - retail customers, 218–219
 - retail digitisation using, 219–220
 - super, 254
 - technology and, 218
 - types, 253
- Aspirational Districts Programme, The, 88
- Asset management segment, 99
- Augmented reality, 23
- Authors' network analysis, citation as per, 68–69
- Autonomous robotics, 23
- Balance sheet lending (BSL), 100
- Bank 4.00, 102
- Bank of Baroda, 7, 11–12
- Bank of Hindustan, 2
- Banking, 2, 98, 206
 - co-operative banks, 2
