

# INDEX

- Academic research, new frontiers in, 34
- Accelerator, exogenous public expenditure multiplier and, 68
- Actor-network theory, 122, 124–125
- Aggregate growth process, 96
- Aggregation process, 10
- Anarchy international system, 114
- Arms control processes, impact of pandemic on, 148
- Arms proliferation, 152
- Arthuis Commission, 60
- Artificial intelligence (AI), 120–121 and expert systems, 24
- Asymmetric information theory, 24–25
- Authoritarian regimes, 175
  
- Balanced growth theory (Nurkse), 98
- Barriers to entry model, 87
- Bayesian SEIRD model, 34
- Big data, 175
- Big push model, 98
- Blackrock, 143
- Border tax adjustments, 50
- Born Rules law of quantum probabilities, 128
- Bosnian war, 158 people and patrimony in, 164–165
- Bottom up approach, 102
- Business
  - ethics, 142
  - sector, 142, 144
  
- Carbon, 49
  - emissions, 115
  - leakage phenomena, 50
  - tariffs, 55
- Carbon dioxide, 113, 115
- Carbon Disclosure Project, 144
- Cataclysmic events, 47
  
- Cathedral of Christ saviour, Russia, 160–161
- Central governments (CGs), 75
- Chain bridge, 163–164
- Chikungunya, 134
- China–USA rivalry, 110
- Chinese grand strategy, 178
- Chinese integrated strategies, 178–180
- Chinese PMCs, 178
- Chinese security forces, 178
- Chizu Town, governance adopted at level of, 80–81
- Christianity, 165
- Circular model of development,
  - role of environment and territory in, 95–97
- Climate change, 46–47, 108, 110, 112–116, 142, 150, 152
  - coalition, exchange and optimality, 55
  - complexities and multiplicity of solutions, 49
  - conceptualising production of energy process, 49–50
  - equity and efficiency in negotiations, 53–54
  - equity issues, 52–53
  - estimating probabilities of international regulation or to lowering costs, 50–52
  - influences societies in ways, 47–48
  - mitigation, 114
  - modelling issue, 54–55
- Climate crisis, 151
- Co-evolution of demand patterns and of supply structure, 90–92
- Coase Theorem (CT), 53
- Cold peace
  - revisionism of Hegemon and new cold war, 110–113

- technological cold war and climate change, 113–117
- Cold war, 112
- Columbia University COVID-19 Projections, 34
- Communication, 7
- Communism, 111
- Computable general Equilibrium model (CGE model), 8
- Conflict and Peace Data Bank (COPDA B), 31
- Conflict and peace economics
  - bull's-eye of target, 161–162
  - destroy to protect, 163–164
  - heritage and long-term consequences of mass atrocity, 164–166
  - heritage tool for conflict prevention and post-conflict rebuilding, 166–167
  - heritage violence and mass atrocity, 158–161
  - implications for, 161, 164, 166
  - seeks refuge at cultural heritage sites, 162–163
- Conflict management, 7–8, 24 (*see also* Disaster management)
  - Isard's conflict management procedures, 8–9
  - theory and procedures, 8
- Constitution of Japan, The, 74
- Control theory approach, 10
- Conventional AI, 122
- Conventional warfare, 174
- Coordinated approaches over unilateralism, superiority of, 151–152
- Coping capacity, 80–81
- Corporate social agenda, 143
- Corporate social responsibility (CSR), 142–144
- COVID-19, 31–34, 108, 112
  - case studies of Tottori to cope with, 79
  - crisis, 97
  - exogenous public expenditure multiplier and accelerator, 68
  - focus on public debt catastrophic for developing countries, 64–65
  - governance adopted at coping capacity level of Tottori prefecture, 79–80
  - governance adopted at level of Chizu Town, 80–81
  - Japan coped with, 74–75
  - mathematical models, 32
  - pandemic, 74, 109, 142, 148–149, 151
  - impact of pandemic on arms control processes, 148
  - priority given to military spending health care and social needs, 148–150
  - ratio of public spending to gross domestic product, 61
  - realisation that disease used as weapon, 150
  - science, 150–151
  - superiority of multilateral and coordinated approaches over unilateralism, 151–152
  - systemic thinking perspective needed for coping with, 75–77
  - vaccine, 109
- Cross-section coefficients, 16
- Cultural capital, 156
- Cultural destruction, 156
- Cultural heritage, 5, 156–157
  - destruction, 156
  - seeks refuge at cultural heritage sites, 162–163
- Cultural objects, 157
- Cultural sector, 156–157
- Curve fitting approach, 33
- Cypriot heritage, 158
  - Turkey's occupation and obliteration of, 165–166
