

# INDEX

- “Ability model” of Emotional Intelligence, 87
- Abusive supervision (AS), 58–59, 86–89, 91
- Abusive supervision dispersion (ASD), 58
  - AET, 60–61
  - categories of paradox, 69–77
  - findings, 65
  - four categories of behavior, 67–69
  - limitations and future research, 80
  - method, 61–65
  - practical implications, 79–80
  - studies of abusive supervision in context of teamwork, 59–60
  - theoretical contributions, 78–79
- Action theory approach, 14–15
- Activation, 89, 95–97
- Active listening techniques, 124
- Affect, 89–90, 92
- Affect Circumplex, The, 89–90
- Affect valence and activation, conditional indirect effects of EI on forgiveness via, 102–103
- Affect valence and activation, conditional indirect effects of EI on revenge via, 97–100
- Affective Events Theory (AET), 5–6, 39–40, 42, 47, 49, 59–61, 69, 79, 87–88, 106, 266–268
- Affective state
  - comparisons on, 97
  - mediation by, 95–96
- Affective valence and activation, mediating role of, 89–90
- Allostasis, 89
- Angel investment decision-making, 52–53
- Angel investors, 5–6, 38
  - affective experiences role in decision to continue investment screening, 40–44
  - emotion associated with different first impressions, 44–47
  - future research directions, 52
  - implications, 47–49
  - limitations, 51–52
  - practical considerations, 50–51
  - theoretical contributions, 49–50
- ANOVA test, 25–26
- Antecedent-focused regulation, 119
- Appraisal process, 232
- Arousal, 89
- Association Rate (AR), 141–142
- Authentic leadership, 224–225
- Avoidance, 68
- Axial coding, 64
- Behavior, four categories of, 67–69
- Boundaries, 201
- Central nervous system (CNS), 18
- CEO, 134–135
  - EI, 136
  - implications for management, 149
  - key concepts, 135–136
  - limitations, 147–148
  - measure of CEOs’ EI, 136–137
  - method, 136–138
  - pilot study, 137
  - results, 138–145
  - study, 137–138
  - verbal addresses, 138
- Charismatic leadership, 224–225
- Chi-square test, 23–24
- Circumplex model, 93
- CIT, 63
- Climate of trust, 252

- Cognitions, 31  
 Cognitive approach, 15  
 Cognitive paradigm, 29–30  
 Cognitive reappraisal, 120, 127  
 Cognitive-Discursive Analysis (CDA), 142  
 Collectivism, 168  
 Collegial emotional labor, 182  
 Communicative validity, 64  
 Conditional process models, 97  
 Confrontation, 67–68  
 Constructivist approach, 91  
 Content-related aspects, 29–30  
 Control-value theory, 119  
 Coping styles, 121  
 Core Affect, 89–90  
 Corridors, 200  
 Counterproductive Work Behaviors (CWB), 105–106, 161  
 Crisis, 134–135  
 Critical incident technique (CIT), 63  
 Critical incidents, 63  
  
 Daily reconstruction method, 21–22  
 Data analysis, 138–145  
 Data collection and analysis, 190–192  
 Detrimental behaviors, 87  
 Diligence process, 51  
 Discourse analysis, 134  
 Discrete emotion theory, 221–222, 225–227  
     key attributes of joy aligned to, 228–229  
 Dispersion paradox, 69, 73, 77–79  
 Distance, 201  
 Distributive justice, 251  
  
 Educational research, 16  
 Emonet Group, 4  
 Emotion regulation, 119, 121–123  
     boundary conditions and opportunities for future research, 127–128  
     consequences of emotion regulation on performance feedback, 123–124  
     feedback, emotions, and performance, 119  
     implications for practice, 126–127  
     implications for research, 126  
     implications for theory, 125–126  
     individual differences in, 121  
     process model of, 120  
     stations, 211–212  
     strategies, 124  
     task and socioemotional relational orientations, 122  
     task and socioemotional relational orientations and emotion regulation, 122–123  
 Emotional arenas, 88–89  
 Emotional intelligence (EI), 2–3, 52, 87, 90, 92, 94–95, 121, 134–135, 162–163, 267  
     CEOs, 267–268  
     conditional indirect effects of EI on forgiveness via affect valence and activation, 102–103  
     conditional indirect effects of EI on revenge via affect valence and activation, 97–100  
 Emotional labor, 2–3, 8, 162, 180, 268–269  
     articulating space and, 181–187  
     in front and back regions, 193–195  
     future perspectives, 213–214  
     intrapsychic approach to, 180  
     limitations, 213  
     methodological implications, 210–211  
     performance in motion, 203–209  
     practical implications, 211–212  
     qualitative methodology to capture emotional dynamics, 188–192  
     social implications, 212–213  
     theoretical implications, 209–210  
     untangling emotional labor and regions, 192–209  
 Emotional Regulation of Oneself (ERO), 94–95

- Emotional stability, 121
- Emotional Understanding (EU), 94
- Emotionalized zones, 180–181
- Emotions, 2–4, 14, 16, 18, 48–49, 60, 74, 119, 220–222, 224, 266
- differentiation, 91
  - evolutionary concept of, 5
  - management, 181–182
  - in organizations, 4
  - practice, 181–182
  - and space in organizational theater
    - of performance, 185–187
    - and verbal expression, 135–136
- Employee job satisfaction, 235–236
- Employee subjective well-being, 234–235
- Entrepreneurial finance, 49
- Entrepreneurial pitch, 38–39, 42–43, 45
- Entrepreneurs pitch, 42, 45, 48
- Exchange process, 72
- Experience sampling method (ESM), 20, 269
- Explicit knowledge, 246–247
- sharing, 253–255
- Expressive suppression, 120
- Extrinsic motivation, 248
- Extrinsic work motivation, 253–255
- Family-to-work enrichment (FWE), 8, 156, 268
- Family–work conflict (FWC), 162
- Feedback, 119
- Feelings, 16–18
- Felix-App, 5, 15, 20–21
- Field diary, 190–192
- Fieldwork, 198
- First impressions, Angel investors’ emotion associated with different, 44–47
- Fisher’s exact test, 25
- Fluoroscopy, 8, 181
- Forgiveness, 91–92, 96–97, 104, 108
- abusive supervision, revenge, and forgiveness, 88–89
  - affects and emotional intelligence, 90–92
  - background and hypotheses, 88–92
  - comparisons on affective state, 97
  - conditional indirect effects of EI on forgiveness via affect valence and activation, 102–103
  - conditional indirect effects of EI on revenge via affect valence and activation, 97–100
  - contributions and limitations, 106–107
  - implications for research and practice, 108–109
  - intentions, 94, 96–97
  - manipulation checks, 93, 96
  - mediating role of affective valence and activation, 89–90
  - mediation by affective state, 95–96
  - methods, 92–96
  - moderated mediation hypotheses testing, 97–103
  - moderator, 94–95
  - outcomes comparisons, 96–97
  - outcomes measures, 94
  - procedure and manipulation, 93
  - process, 106
  - results, 96–103
  - sample and participants, 92–93
- Framework for Unit-level Emotional Labor (FUEL), 210
- Future research directions, 269
- Gender, 165–167
- Geometric Data Analysis (GDA), 144
- Gut feeling, 49–51
- Hattie’s meta-analysis, 16
- Health-care settings, performing emotional labor in, 181–183
- Homeostasis, 18
- In-betweens, 198–202
- Individual allostasis, 108–109

- Individual differences in emotion regulation, 121
- Individual-level abusive supervision, 59
- Individualism, 168
- Individualistic cultures, 168
- Informational justice, 250–251
- Instrumental emotional labor, 182
- Interactional justice, 250–251
- Interoception, 42
- Intrinsic motivation, 248
- Intrinsic work motivation, 255–257
- Investment decision process, 40
- Investment screening, Angel investor's affective experiences role in decision to continue, 40–44
- Investor's First Impression, 49–50
- Job performance, 160–161
- Joy, 222, 224–225
- Joyful leadership, 221–222, 224, 269
  - and actions, 230–231
  - and autonomic patterns, 227–230
  - and identified emotion, 232–233
  - impacts, 234–236
  - implications, 236–237
  - and nonverbal behaviors, 232
  - style via discrete emotions, 225–233
- Knowledge, 19
  - asset, 246
  - knowledge-based institutions, 259
  - knowledge-intensive organizations, 259
  - sharing, 247, 252
- Kruskal–Wallis H tests (KW H tests), 96
- Leader–member exchange (LMX) (*see also* Team–member exchange (TMX)), 60, 162, 248–249
- Leaders, 220
- Leadership, 134–135, 162, 220, 222
  - process, 7
  - styles, 221–222, 224–225
- Learning environment, 30
- Liminality, 200
- Long-term care units (LTCUs), 180–181, 188, 203
- Long-term orientation, 169
- Masculinity, 168–169
- Maslow hierarchy, 15–16
- Mayer-Salovey-Caruso Emotional Intelligence Test (MSCEIT), 267
- Mediation by affective state, 95–96
- Mindfulness, 127
- Mixed emotions, 44, 46–47
  - role of, 48
- Mixed regions, 199
- Moderate effect, 96
- Moderated mediation hypotheses testing, 97–103
- Moderators, 94–95, 251–252
- Motivation and students interest, 19
- Movement, 201
- Negative emotions, 43–46
- Negative feedback, 124–125, 127
  - boundary conditions and opportunities for future research, 127–128
  - feedback, emotions, and performance, 119
- Neuroticism, 121
- Open coding, 64
- Organization theory (OT), 2
- Organizational behavior (OB), 2
- Organizational Citizenship Behavior (OCB), 161
- Organizational climate for trust, 252
- Organizational fairness, 258
- Organizational justice, 250–251, 258
  - distributive justice, 251
  - interactional justice, 250–251
- Organizational knowledge, 247

- Organizational rules, 251, 254–255  
 Organizational studies, 123  
 Organizations, 220
- Paradox, 69  
   categories, 69–77  
   dispersion, 69–73  
   resentment, 73–75  
   team, 75–77
- Partially supported hypothesis, 103  
 Pecuniary emotional labor, 181–182  
 Pedagogical acting, 14–15  
 Performance, 119  
 Performance feedback, 118  
   consequences of emotion  
     regulation on, 123–124  
 Personality traits, 121  
 Philanthropic emotional labor,  
   181–182  
 Physiological needs, 22  
   emotions, feelings, drives and  
     relatedness to needs, 16–18  
   hypotheses, 19  
   limitations, 29–31  
   motivation and students interest,  
     19  
   needs and motivation, 15–16  
   procedure, 20–22  
   research design, 20–22  
   results, 22–26  
   theoretical background, 15–19  
 Pilot study, 137  
 Polyphony, 210  
 Positive affect, 220–221  
 Positive emotions, 43, 49  
 Positivistic approach, 58  
 Power distance, 169  
 Practice, implications for, 126–127  
 Pragmatic validity, 65  
 Prescriptive emotional labor, 181–182  
 Presentational emotional labor,  
   181–182  
 Proactive coping strategies, 121  
 PROCESS macro v4.0, 97  
 Propositional discourse analysis  
   (PDA), 138–139
- Psychological approach, 15–16  
 Public hospital, 188
- Qualitative researcher in white coat,  
   188–190  
 Qualitätsoffensive Lehrerbildung, 14
- Reactive coping strategies, 121  
 Regulatory processes, 224  
 Relational orientation, 127  
 Reliability, 65  
 Research, implications for, 126  
 Resentment paradox, 73, 75,  
   77–78  
 Resource-based view theory, 246  
 Response patterns and joy, 227  
 Response-focused regulation, 119  
 Revenge, 88–89, 96–97  
   intentions, 94, 96–97  
 Roseman's appraisal theory, 94
- Schutte self-report EI test (SSEIT),  
   137, 144  
 Screening process, 48, 50  
 Self-Assessment Manikin  
   (SAM), 93  
 Self-determination theory,  
   14–16  
 Semantic analysis using Tropes  
   software, 138–145  
 Servant leadership, 224–225  
 Situational test of emotional  
   management–brief  
   (STEM-B), 93, 95, 267  
 Situational test of emotional under-  
   standing–brief (STEU-B),  
   93–94, 267  
 Snowball techniques, 61  
 Social Science Citation Index (SSCI),  
   257  
 Social support, 163–165  
 Social worlds, 197  
 Society for Industrial and  
   Organizational Psychology  
   (SIOP), 4–5  
 Socio-constructionist approach, 95

- Socioemotional approaches, 122
- Socioemotional relational orientations, 122–123
- task and, 122
- Space in organization studies, 183–185
- Spatial analysis, 185
- Spatial dynamics, 180–181
- Spiritual leadership, 224–225
- Standard-based scoring system, 94
- Stephen Porges' polyvagal theory, 30–31
- “Strategical sub-domain” of EI abilities, 94
- Streams of thought, 267
- Subsidiary analysis, 145
- measure of emotional valence of CEOs' speeches, 145
- Supervisors, 58
- Tacit knowledge, 246
- Tacit knowledge sharing, 255–257
- Task orientation, 122–123
- Task performance
- boundary conditions and opportunities for future research, 127–128
  - feedback, emotions, and performance, 119
  - task and socioemotional relational orientations, 122
  - task and socioemotional relational orientations and emotion regulation, 122–123
- Task relational orientations, 122–123
- Task-related approaches, 122
- Task-related orientation, 122
- Team conflict, 68–69
- Team paradox, 75, 77–79
- Team-level abusive supervision, 59
- Team–member exchange (TMX), 68, 247–248, 250
- implication for research, 257
  - implications for practice, 257–258
  - limitations, 258–259
- Teamwork, studies of abusive supervision in context of, 59–60
- Theoretical concepts, 87
- Theory, implications for, 125–126
- Theory of constructed emotion (TCE), 91
- Theory of Motivation, 247–248
- Therapeutic emotional labor, 182
- Trajectory, 201
- Transactional leadership, 224–225
- Transformational leadership, 220, 224–225
- Transitional and mixed regions as “in-betweens”, 198–202
- Transitional spaces, 200–201
- Tropes software, semantic analysis using, 138–145
- Uncertainty avoidance, 169
- Unishop, 20
- University of Potsdam, 14
- Valence, 89, 95–97
- Valuation process, 104–105
- Variability, 69–71
- in performance of emotional labor, 195–198
