Ambiguity, 81, 91, 96
  role, 159
Australian variant approach, 16
Autonomy, 1, 7–9, 15, 19, 21, 23, 25, 32, 65, 80, 91, 117, 130, 150, 157, 165, 168, 170, 180
  related to QWL outcomes, 32
  team, 103–104
  Work Group, 22

Behaviours and leadership styles, 89–94
Boundary spanner, 67, 69
Business management responsibility, 67
Business Process Reengineering approach (BPR approach), 18
Business unit representatives, 155
Buurtzorg, 4, 57, 72, 184, 186

Care provision, 57, 58, 75
Central HRM departments, 155, 161
Centralisation model, 155
Challenging job demands, 150
Classic self-managing team approach (Classic SMT approach), 14
Co-production, 166
Coach-managers, 53, 58–59, 61, 86, 109, 111–112, 127, 129–130, 156, 165–166
Coal mining methods, 14
Cognitive crafting, 151
Collaboration techniques, 20
Collaborative crafting, 150
Communication skills, 20, 163
Complementary resources, 156–157, 169
Conclusion validity, 31
Configurational perspective, 119
Construct validity, 31
Contemporary SMTs approach, 18–20
Contextual performance, 107
Control mechanisms, 123
Control mechanisms (*see* Governance mechanisms)
Coordination, 168–170
'Counter dependency and fight' period, 24
Cultural values, 38, 42
Customer service delivery, 39

Decentralisation of healthcare to municipalities, 55–56
Decision making processes, 20
Decision-making power, 72
  communication, 75
  compensation and rewards, 74
  financial power, 75
  knowledge, 75–79
  performance assessment, 73–74

recruitment and selection, 73
task distribution and organising schedules, 75
training and development, 74
Demographic changes, 55
Dependency and inclusion, 24
Developmental I-deals, 152
Devolution of people management responsibilities, 70
decision-making power, 72–79
task implementation, 72
Diversity, 182
Dutch healthcare system, 55
Dutch service SMTs, 36
Dutch variant of modern STS, 16–17

e-Learning system, 109, 125–126
Economies of scale, possibilities for, 190–191
Efficiency-driven approach, 184
Embedding resources, 160
Employees, 159, 166
employee-coordinator, 153
gains, 167–168
involvement context, 15–16, 37
in SMTs, 156–161
Empowerment
level, 187
of SMTs, 102–104
teams, 13
Evidence evaluation, 30
Evidence-based approach, 29
Evidence-based literature review methodology, 29–30
Evolutionary approach, 13
Expertise promotion, 126
External validity, 31

Financial power, 75
Financial responsibility, 67
First-line managers, 66
Five factor model (FFM), 15, 249
Flexibility and client driven approach, 184
Flexibility I-deals, 152
Formal control mechanisms, 122, 155
Formal governance mechanisms, 122–124, 129–130, 139
Foundational premises (FPs), 164, 169
Four-phase SMT implementation process model, 79
Full-time equivalent (FTE), 157

General Act on Special Affairs (*see* *Algemene Wet Bijzondere Zaken* (AWBZ))
Global customer team design (GCT), 223
Governance mechanisms, 119, 128, 138–141
and alignment between HRM activities, 138–141
formal and informal governance mechanisms, 122–123
horizontal and vertical alignment, 119–120
horizontal governance mechanisms in SMTs, 129–138
SMTs and, 120–122
vertical governance mechanisms for SMTs, 123–129
Grand theories, 13
Greenfield organizations, 186, 190
Group beliefs, 15, 35–36
Group characteristics, 15, 34–37, 41
Group composition, 15, 34–35
Group potency, 36
Group process, 15, 36–37
Group task design, 15, 31–33

Health insurance act (*see* Zvw)
Healthcare organisations, 55, 72
Healthcare teams in long-term and elderly care
development projects, 60–61
external and internal developments, 55–60
history of Livio's choice to SMTs, 61, 62
information sources, 61–63
