

INDEX

- Academi@ “Ser Caetano”, 151
Accountability, 119
“Action–participation–investigation”
method, 139
“Action–participation–research”
method, 149
Affinity, 72
Agricultural cooperatives, 120
Agricultural marketing cooperatives,
124
Agriculture (ag), 120
data management issues, 123–124
growth of agriculture’s information
age, 122
role for cooperatives, 124–125
Alliances, 65
Artificial intelligence (AI), 138
Ashby’s Law, 34
Associations, 65
Automation, 118
Avant-garde approach, 2
‘Being Caetano’ culture, 148, 151, 155
Being Kaizen, 151
Big data, 2, 125
analysis, 27
indicators, 22
Binding agent, 72
Bleeding-edge entrepreneurship, 2
Blockchain technology, 3, 27, 173,
175, 178–181
conceptual framework and
methodology, 175–176
digital assets in Paraguay, 176–184
golden rule in, 186–189
limitations and future research,
189–192
profile and golden rule for digital
assets leader, 184–189
Blue economy, 2, 6–7, 14
Blue entrepreneurship factors, 9, 12
Business, 138, 175
cooperation, 74
day-to-day operations, 131
models, 73
units, 181–182
Case study, digital assets, 176–184
Charisma, 142
Chinese culture, 142
Clean drinking water, 36–37
Closed cooperatives, 122
Clustering strategy, 8
Clusters, 8, 65
Co-op fever, 121
Coal mining in Wales, 48–49
Coastal tourism, 8, 12, 15
Color mapping, 123
Community, 138, 181
Community based ecotourism
(CBET), 8
Conceptual model of research,
145–148
Content analysis, 61
Conventional capitalist firms, 126
Cooperation, social relationships
and, 69
interlinks between social
relationships and inter-
organizational cooperation,
75–76
negative effects of inter-organizational
cooperation on social
relationships, 74–75
negative effects of social
relationships on inter-
organizational cooperation,
73–74

- positive impacts of inter-organizational cooperation on social relationships, 74
 - positive impacts of social relationships on inter-organizational cooperation, 69–73
- Cooperatives
 - producer, 120–125
 - worker, 125
 - worker-owners, 128
- Corporate social responsibility (CSR), 33
- Correlation analysis, 22
- COVID-19 pandemic, 54, 138, 147, 182
- Cryptocurrencies, 178–181
- Culture, 146
 - of SHRM and IP, 157–160
- Customers, 181–182
- Cutting edge technology, 173
- Data
 - analysis, 149
 - blocks, 175
 - and methodology, 101
 - sample, 101–103
- Decision-makers, 162
- Deep blue entrepreneurship, 2, 7–8
 - data description, 8–9
 - descriptive statistics, 9–12
 - factors, 9
 - implications for theory and practice, 14–15
 - limitations, 15
 - regression analysis, 13
 - results, 9
- Desalination, 7
- Descriptive analysis, 61
- Digital assets, 174, 176–177
 - CEO behavioral strengths, 185
 - DISC strengths, 185
 - golden rule in blockchain, 186–189
 - leader profile, 184–186
 - organizational structure of, 180
 - philosophy, 179
 - profile and golden rule for successful, 184
- Digital entrepreneur, 174, 190
- Digital entrepreneurship (DE), 20, 92, 96–97
 - contexts, 21
- Digital entrepreneurship ecosystem (DEE), 92, 95
 - and TEA, 97
- Digital environments, 21
- Digital infrastructure governance (DIG), 95–96
- Digital marketplace (DM), 95
- Digital natives, 38
- Digital skills, 21–22
- Digital support, 27
- Digital tools, 27
- Digital transformation, 92
- Digital user citizenship (DUC), 96
- Digital venture ecosystems on entrepreneurship in Europe
 - data and methodology, 101–108
 - digital entrepreneurship ecosystem, 95–101
 - literature, 93–108
 - meta-organization theory, 93–95
 - theoretical and practical implications, 108
- Digitalization, 20
 - movement, 20
 - revolution, 20
- Directly democratic worker cooperatives, 126
- Disability, 119
- DISC methodology, 184
 - strengths, 185
- Diseases of despair, 118
- Disruptive technology, 174
- e-CNY (Digital yuan), 187
- EBSCO, 58
- Ecosystem, 134
 - management, 7, 14
- Egypt, 33
- Employment security, 129
- Empowerment, 37
- Energy, 15
- Entrepreneurial ecosystems, 2, 95

- Entrepreneurial process, 21, 25, 53
- Entrepreneurial spirit, 141
- Entrepreneurs, 141, 184, 190
 - entrepreneurs' SR, 74

 - ecosystems, 100
 - elevating worker cooperative model, 134
 - field, 1
 - impact on community and local economy, 133–134
 - impact on worker, 132–133
 - launching worker cooperative business, 131–132
 - operational, 131
 - theory, 41
 - worker cooperatives and, 131
- European Index of Digital Entrepreneurship Systems (EIDES), 101
- European Union (EU), 6, 20
- Eurostat database, 20
- Exclusion criterion, 60
- Externalization process, 100

- Farm managers, 124
- Farm supply cooperatives, 124
- Federated agricultural cooperatives, 125
- Federated cooperative structure, 124
- Federated precision ag cooperative, 125
- Financial technology (Fintech), 38
- First Law of Cybernetics (*see* Ashby's Law)
- Food entrepreneurs, 27
- Food industry entrepreneurs
 - analytics puzzles for, 24
 - digital skills and big data indicators in UE, 24–25
 - literature review, 21–22
 - managerial implications, 27
 - methods, 22
 - results, 22–25
 - Spearman's correlations for UE in 2020, 26
 - theoretical implications, 27
- Gas, 7
- General Systems Theory, 34
- Generalized method of moments (GMM), 103
- Geographic information systems, 27
- Global Positioning System (GPS), 122
 - GPS-based soil sampling, 123
- Golden rule, 184, 190
 - in blockchain, 186–189
- Gongali Model Company, 36–37
- Goods transportation, 6
- GoogleScholar.com, 58
- Green credit card, 37–38
- Green economy, 6–7
- Greenwashing, 33

- Harmonious entrepreneurship, 34–35
- Heavy metals, 36
- High-tech company, 174
- Human capital, 99
- Human productivity, 118
- Human resource (HR), 139
- Human resource management (HRM), 142
- Humane entrepreneurship, 33

- In-house entrepreneurship, 145, 149
- Indirectly democratic worker cooperatives, 126
- Individual organizational techniques, 151
- Individual practices
 - influence IP, 155–157
 - synchronicities of SHRM and IP, 157–160
 - and technology, 149
- Industrial clusters, 8
- Industry 4.0, 144
- Industry 5.0, 160
- Information and communications technologies (ICT), 20–21, 60, 92, 138
 - specialists, 22–23, 27
 - training, 26–27
- Information technology (IT), 144
- Innovation, 6, 14, 41
- Input-processing-output approach, 57

- Inspiring motivation, 142
- Intellectual stimulation, 142
- Inter-organizational cooperation (COOP), 53
 - interlinks between, 75–76
 - negative effects, 73–75
 - positive impacts of social relationships on, 69–74
- Internalization process, 100
- International Cooperative Alliance (ICA), 119
- International Labor Organization, 139
- Internet, 175
- Internet of Things, 92
- Interpersonal relationships, 52, 72
- Interpersonal trust, 73
- Intrafirm, 140
- Intrapreneurial behavior, 140
- Intrapreneurship (IP), 138
 - culture, leadership and individual practices synchronicities of, 147
 - implementation of, 150
 - individual practices, 146, 155–157
 - leadership, culture and individual practices synchronicities of, 157–160
 - in SHRM, 139–141
- Kaizen, 144–145
- Knowledge, 96–103
 - knowledge-sharing strategic in group, 151
- Leadership, 165, 190
 - of SHRM and IP, 157–160
- Learning models, 174
- Macro-approach, 2
- Management, 144
 - practices, 15
- Mapping systems, 123
- Marine bio-tech, 15
- Marine construction, 7
- Marine resource extraction, 6
- Marine services, 7
- Marine transportation, 7
- Market transactions, 65
- Medicine, 60
- Mega clusters, 8
- Member-owned firms, 120
- Membership cooperatives, 122
- Meta-organization theory, 93–94
 - digital infrastructure governance, 95
- Methane reduction, 38–40
- Micro clusters, 8
- Mining algorithm, 179
- Mondragon Cooperative Corporation, 126
- Multispectral imaging, 122
- Nanofilter, 36
- Natural attrition, 129
- New Generation Cooperatives (NGC), 121–122
 - producer capital contributions for, 122
- Normalized Difference Red Edge (NDRE), 123
- Normalized Difference Vegetative Index (NDVI), 123
- Ocean energy, 12, 15
- Ocean-dependent leisure, 6
- Ocean-dependent tourism, 6
- Oil, 7
- Operational worker cooperatives, 131
- Organizational culture, 142, 146
 - to transformational leadership and individual practices, 141–144
- Organizational entrepreneurship, 52
 - intricate relationship between, 53
- Organizational governance, 125
- Organizational innovativeness, 75
- Organizational resilience, 146
- OTC, 181
- Paraguay
 - blockchain and cryptocurrencies, 178–181
 - company, 176–178

- context, 182–184
- customers and business units, 181–182
- digital assets in, 176
- Partnerships, 65
- Patronage, 127
 - refund, 121
- Personal bonds (*see* Social relationships (SR))
