EDITORS' PROFILE

Rajib Shaw is an Associate Professor in the Graduate School of Global Environmental Studies of Kyoto University, Japan. He worked closely with the local communities, NGOs, governments and international organization, including United Nations, especially in the Asian countries. He is currently the Chair of the United Nations Asia Regional Task Force for Urban Risk Reduction. His research interests are: community-based disaster risk management, climate change adaptation, urban risk management, and disaster and environmental education.

Koichi Shiwaku is a Research Fellow of Earthquake Disaster Mitigation Research Center (EDM), National Research Institute for Earth Science and Disaster Prevention (NIED), Japan. He worked closely with the local community, school teachers and students, NGOs, governments, universities, and other related organizations. His main working fields are mainly Asian countries including disaster-affected areas. His research interests are community-based disaster management, disaster education, and capacity building.

Yukiko Takeuchi is an Assistant Professor in the Graduate School of Global Environmental Studies of Kyoto University, Japan. She has extensive experiences in risk communication and gender studies in the field

of disaster risk reduction. She has worked in several developing countries in the Asian region. Working with the school children and local communities, she has developed different innovative tools for disaster education and community-based risk communication. She has also written extensively in different journals and book chapters.
