

# INDEX

- Ability-Motivation-Opportunity framework (AMO framework), 13–14, 21–22
- Accountability, 90–91
- Agency theory, 102
- Al Reves, 150, 154–163
  - dynamic strategy map, 162–163
  - key performance indicators, 157–161
  - mission and vision, 154–155
  - system dynamics model, 155–157
- Analytical flexibility, 70
- Augmented Dickey-Fuller test (ADF), 46
- Auxiliaries, 144
- Balanced Scorecards (BSC) (*see also* Dynamic Balanced Scorecards (DBSC)), 140, 142–143
  - BSC-driven modelling, 148–149
- Balancing loops, 146
- Behaviours, 68
- Beneficiaries perspective, 160
- Biflows, 144
- Causality test, 47
- Charities, 140
- Charting, 94–95
- Civil society, 1
- Classification of the Functions of Government (COFOG), 90
- CLDs, 146
- Climate change, 32
- Co-integration
  - analysis, 46
  - tests, 47
- Coding, 71–73
- Competition, 90–91
- Complexity, 90–91
- Consumers perspective, 160
- Content analysis, 70
- Corporate social responsibility (CSR), 34
- Corporate sustainability (CS), 34–35
- COVID-19 pandemic, 32, 41, 112–113, 116
- Culture, 9
- Customer Perspective, 142–143
- Data charting, 94–95
- ‘Descriptive-analytical’ technique, 94–95
- Developmental culture, 17
- Dynamic Balanced Scorecards (DBSC), 3–4, 140, 143, 146
  - alternative modelling strategies for, 147–149
  - previous applications, 146–147
- Dynamic strategy map, 154, 162–163
- Ecological focus of HRM, 39
- Economic focus of HRM, 39
- Employee focus of HRM, 39
- ‘Employees’ behaviour, 6–7
- ‘Employees’ pro-environmental behaviour, 18
- Environmental management (EM), 5–7, 9
- Environmental performance, 5–6
- Environmental protection, 5–6
- Environmental sustainability practices, 5–6
- Extra-role pro-environmental behaviour, 19
- Financial perspective, 142–143, 160–161

- Flows, 144
- Global Reporting Initiative (GRI), 3, 91, 100–101
- Global Sustainable Competitiveness Index, 47–48
- Governments, 1
- Granger causality test, 47–48
- Green branding, 10
- Green culture, 9
- Green employer branding, 10
- Green Human Resource Management (GHRM), 2, 6–7, 9  
 antecedents, 9–10  
 drivers, 17–18  
 implementation, 10–12  
 and organizational performance, 21–22  
 outcomes, 12, 14, 18, 21  
 public sector, 15–17, 22
- Green involvement, 12
- Green training, 11, 19
- Green vision, 12
- Group culture, 17
- Health sector, 116
- Hierarchical culture, 17
- Human resource (HR), 2, 6–7
- Human Resource Management (HRM) (*see also* Green Human Resource Management (GHRM)), 2, 6–7, 9, 33, 66, 100, 147
- Impulse response function (IRF), 48
- Individual performance, 64
- Individual performance appraisal systems (IPASs), 63  
 analysis, 73  
 coding, 71–73  
 conceptual framework, 66  
 data collection, 70–71  
 Italian reform, 64–70  
 purpose, object and process, 74, 76, 78  
 research design and method, 70–73  
 results, 73–78
- Individual public administrations, 63
- Information and communication technology (ICT), 98
- Institutional theory, 99
- Integrated Plan of Activities and Organization, 116
- Internal Processes Perspective, 142–143, 159–160
- International organizations, 115
- Istituti di Ricovero e Cura a Carattere Scientifico* (IRCCSs), 113, 116, 119
- Italian Ministries, 73
- Italian National Health Service (NHS), 116–117
- Italian reform, 64–70  
 conceptual framework, 66  
 main topics of regulation concerning individual performance, 64–66  
 public administrations, 66, 68–70
- Italy, 116–118
- Job satisfaction, 18
- Leaders, 17–18
- Learning and Growth Perspective, 142–143, 159
- Legitimacy theory, 99
- Monetary-based green reward systems, 11–12
- National governments, 1
- National Recovery and Resilience Plan (NRRP), 62
- Non-governmental organizations (NGOs), 140
- Non-monetary rewards, 11–12
- Non-profit organizations (NPOs), 1, 141

- Organizational Citizenship Behaviour
  - Environment (OCBE), 7, 9, 13, 19
- Organizational culture, 9, 17
- Organizational impacts, 100
- Organizational performance, 64
- Ownership, 90–91
- Ownership of Sustainability, 42
  
- Panel co-integration results, 47
- Panel VAR, 46
- Performance appraisal systems, 66–67
- Performance management, 62
  - practices, 5–6
  - in third sector, 141–142
- Performance measurement, 115
- Performance Plan (PP), 73, 117
- Phillips–Perron test (PP), 46
- PRISMA Extension for Scoping
  - Reviews (PRISMA-ScR), 93
- Private firms, 90
- Private sector, 1
- Pro-environmental behaviour, 19
- Pro-environmental culture, 9
- Profit approach, 90–91
- Profit maximization, 141
- Public administrations, 66, 68–70
- Public employees, 15–16
- Public Function Civil Service
  - Department, 66
- Public health sector, 116
- Public management, 75
- Public managers, 101–102
- Public organizations, 3, 37, 90–91, 102, 112
  - sustainable HRM in, 36–38
- Public sector, 5–6
  - GHRM in, 15–17, 22
  - organizations, 1, 5–6
- Public Value (PV), 3, 112
  - background, 114–116
  - context and research design, 116–122
  - before COVID-19 outbreak, 126
  - findings, 123–131
  - health emergency, 126–129
  - shifts between periods, 129–131
- Public–private partnerships, 15–16
  
- Qualitative goals, 68
- Qualitative SD, 144
- Quantitative goals, 68
- Quantitative SD, 144
  
- Rational culture, 17
- Recruitment, 10
- Reinforcing loops, 146
- Resource-based view (RBV), 21–22
  
- Scoping review technique, 92
- Simon’s levers of control, 102
- Skills development, 78
- Social enterprises (SEs), 140
  - Al Reves, 154–163
  - case study identification, 150
  - literature review, 141–149
  - methodology, 149–154
- Social focus of HRM, 39
- Stocks, 144
- Sustainability, 1–2, 5–6, 32–33
  - growing expectations for
    - sustainability in organizations, 34–35
  - human resources perspective on
    - sustainability challenges in organizations, 40–42
  - literature review, 33–34
- Sustainability accounting, 89–90
- Sustainability reporting (SR), 89–90
  - article identification and selection, 92–94
  - data charting, 94–95
  - descriptive analysis of results, 95–99
  - future developments and research
    - questions, 99–102
  - methodology, 92–95
  - theoretical background and
    - research questions, 91–92
- Sustainable business models, 33–34
- Sustainable competitiveness, 32

- contribution of human resources in science and technology to, 43–44
- data and methodology, 44–46
- empirical results, 46–48
- limitations and future research, 51
- literature review, 33–35
- managerial and theoretical implications, 50–51
- sustainable HRM, 35–42
- Sustainable development, 1, 5–6, 33, 128–129
- Sustainable HRM, 35–42
  - characteristics, 40
  - definition, 38–40
  - in public organizations, 36–38
- System dynamics (SD), 140
  - dynamic strategy map, 154
  - identifying KPIs, 153–154
  - mission and vision, 152
  - modelling steps, 150, 152–154
  - SD-driven modelling, 149
- Transformational leadership, 17–18
- Uncertainty, 90–91
- United Nations Sustainable Development Goals (SDGs), 1, 32, 62, 112
- Vector auto-regression model (VAR model), 44
- World Commission on Environment and Development (WCED), 33
