

SUBJECT INDEX

- Accessibility, 5
- Active learning, 77
- Administrators, 33
- Afghani context, 87
- Afghanistan, 86
- Aid workers, 5
- American Association for the Advancement of Science (AAAS), 66
- Artificial intelligence approaches, 75
- Assessment, 39
- Asynchronous learning, 67
- Attention, 69
- Attitudes, 7–8, 53–54, 70, 86, 88, 101, 103
- Audio conferencing, 15
- Axial coding, 91–92

- Bangabandhu Sheikh Mujibur Rahman Digital University (BDU), 43, 46
- Bangladesh, 32, 86
 - E-learning challenges and benefits during education in emergencies, 40–41
 - efficient learning provision, 42
 - findings, 37–40
 - higher education in Bangladesh during COVID-19 pandemic, 43–44
 - initiatives, 34
 - learning delivery flexibility, 42–43
 - methodology, 35–37
 - recommendations and future of higher education, 44–47
 - research questions, 35
- Bangladeshi context, 88
- Beliefs, 57, 61, 67–68, 101
- Benefits and challenges, 40–41

- Blackboard Ultra Collaborate System (BUCS), 70
- Blended learning, 52, 113

- Collaborative learning, 52
- Commission for university education (CUE), 116
- Communication skills, 70
- Communicational challenges, 14
- Competitive atmosphere, 68
- Computer-Assisted Language Learning (CALL), 14–17
 - requirements, 16–17
- Computer-mediated communication (CMC), 6
 - Language Learning, 14–17
 - requirements, 16–17
- Computers, 33
- Constructivist approach, 9, 69, 77
- Constructivist theory, 69
- Content analysis of interviews, 115
- Convention on the Rights of the Child in 1989, 5
- Cooperative learning, 108
- Coronavirus 2019 pandemic (COVID-19 pandemic), 6–8, 12, 32–33, 46, 52, 66, 84, 112
 - pandemic era, 70
- Course design, 101
 - and credibility of course content for online teaching, 116
- Course design, development, and teaching (CDT), 8, 102–104
- Course designers, 7, 61
- COVID-19 online learning (CoOL), 101
- Creativity and flexibility, 73
- Crisis, 4
- Crisis response
- Critical thinking, 67

- Cross-puzzles, 73
- Crossword games, 71
- Crossword puzzles, 67–68
- Cultural transformation, 35
- Curriculum, 39
- Data, 17
 - analysis, 105–107
- Descriptive statistical analysis, 105–106
- Deterioration of speaking skills, 19–20
- Developing countries, 84, 86
- Development, 101
- Didactic lectures, 69
- Digital divide differences in online learning, 55
- Digital literacy, 61, 85
- Digital transformation, 7, 44, 52, 120
- Distance education, 12, 85, 100, 112
 - effect of psychological factors on student engagement during, 21
- E-learning, 33, 112–113
 - challenges and benefits during education in emergencies, 40–41
- Economic crisis, 27, 86, 93–94, 102, 104
- Education, 4
- Education Emergency Interventions (EEIs), 120
- Education in emergencies (EiE), 5, 33, 44
- Educational level differences in online learning, 54
- Educators, 5, 33
- Effective teaching, 85
- EFL
 - CALL, 14–17
 - CMC Language Learning, 14–17
 - findings, 19–25
 - methodology, 17–19
 - oral proficiency and fluency, 13–14
- Emergencies, 4–5
- Emergency times, 6, 8, 85, 89, 95
- Emerging technologies, 41, 44
- Engagement of the students, 68
- English PSP, 24–25
 - enrollment records, 19
- Enhanced learning, 113
- Epidemics stresses, 69–77
- Ethical considerations, 36–37
- Face-to-face (FTF), 6
 - to distance learning, 85–86
- Faculty officials, 9, 114–115, 121
- Female students, 54–55, 58, 70
- Flexibility, 42–43
- Foreign language anxiety (FLA), 13
- Free-riding, 107
- Games, 70–71
- Gender, 52
- Gender differences in online learning, 53–54
- Good practices and lesson learned, 43–44
- Google Classroom, 87, 113
- Google Meet, 39
- Government of Bangladesh (GoB), 34
- Group work, 9, 107
- Health and Safety, 37
- Hermeneutic analysis of data, 115
- Higher Education, 4, 54, 112
 - in Bangladesh during COVID-19 pandemic, 43–44
 - pedagogical changes, 45–47
 - policy and practice, 44–45
 - recommendations and future of, 44–47
- Higher Education Commission (HEC), 87
- Higher Education in Emergencies, 84
 - Afghani context, 87
 - Bangladeshi context, 88
 - Lebanese context, 86
 - methodology, 88–89
 - Pakistani context, 87–88
 - qualitative data analysis, 91–93
 - quantitative data analysis, 89–91
 - transition from face-to-face to distance learning, 85–86

- Higher education institutions (HEIs),
8, 84, 100
 COVID-19 pandemic effect on,
 113–114
- Higher Education Learning
 Management System
 (HELMS), 87
- Human rights, 5
- Hybrid flexible learning (HyFlex
 learning), 52
- Impact evaluation, 5
- Inferential statistical analysis, 105–107
- Information and Communication
 Technology (ICT), 33, 117
 skills, 23–24
- Initiatives, 34
- Innovative online teaching methods,
66–67
 crossword puzzles, 67–68
 epidemics stresses, 69–77
 future perspectives, 77
 importance and challenges, 67
 mind map in medical education,
 68–69
 short stories as teaching aid in
 medical education, 68
 types of online communications, 67
- Institute of Education and Research
 (IER), 46
- Institutional Support (IS), 102
- Institutions of Higher Education, 9,
12, 41, 119
- Institutions of Higher Learning
 (IHLs), 114
- Instructor-to-student interaction (ISI),
8–9, 102–103
- Instructors' satisfaction with online
 teaching and learning,
 101–102
- Instructors' background and
 satisfaction with online
 teaching, 102–103
- Instructor–student relationships,
 struggle to build, 20
- Interactive communication, 70
- Interactive teaching practices, 70
- Interagency cooperation, 4
- International Association of
 Universities (IAU), 112
- International organizations, 5
- International Rescue Committee
 (IRC), 5
- Islamic University of Technology
 (IUT), 43, 46
- Juniors, 7, 53, 55, 57–61
- Kenya, 9, 114–120
- Kenyan Institutions of Higher
 Education, 112
 COVID-19 pandemic effect
 on higher education
 institutions, 113–114
 data analysis and presentation,
 115
 findings, 116–118
 methodology, 114–115
- Language learning, 13, 28
- Learner autonomy, 16, 24, 26
- Learning, 69
- Learning community, 16
- Learning Management Systems
 (LMS), 14, 45, 87
- Lebanese context, 86
- Lebanese instructors, 101
 data analysis, 105–107
 findings, 107–108
 instructors' background and
 satisfaction with online
 teaching, 102–103
 instructors' satisfaction with online
 teaching and learning,
 101–102
 methodology, 104–105
 online education in Lebanon,
 103–104
- Lebanon, 86
 online education in, 103–104
- Lecturers, 9, 38, 40–41, 43–44, 59,
112–120

- Lockdown, 6–7, 12, 32, 43, 69, 84
 Longevity, 37–38
- Male students, 54, 70
 Memory, 69
 Microsoft PowerPoint (MS PPT), 73
 Microsoft Teams, 39, 86, 100
 Mind map
 assignments as assessment tool in
 physiology, 76–77
 in medical education, 68–69
 Mind mapping, 68–69
 Ministry of Education, 45
 Ministry of Education Sector Disaster
 Management Policy, 120
 Ministry of Higher Education in
 Afghanistan (MoHE), 87
 Mobile phones, 33
 Mock interviews, 18
 Moodle, 86, 100
 Motivation, 13, 22, 67, 70, 93, 107
- Negative mindset, 7
- One-to-one interactions, 15
 One-way ANOVA test, 6
 Online assessment, 39, 43, 103
 Online communications, types of, 67
 Online crossword puzzles in physiology
 education, 70–73
 Online distance teaching and learning
 (ODTL), 37
 Online education, 52, 113
 Online educational activities, 66
 Online educational process, 66
 Online Instructor Satisfaction
 Measure (OISM), 8, 102,
 104–105
 Online learning, 8–9, 33, 37, 43, 52,
 85, 112
 digital divide differences in, 55
 educational level differences in, 54
 gender differences in, 53–54
 participants' views on, 58–59
 Online learning community, efforts to
 build, 22–23
- Online learning environment, 54,
 85–87, 100, 107
 Online physiology short stories,
 73–75
 Online students, 54–55
 Online Surveys, 35
 Online teaching, 113
 challenges, 116–117
 course design and credibility of
 course content for, 116
 solutions to lecturers' challenges,
 117–118
 Online teaching and learning,
 instructors' satisfaction
 with, 101–102
 Online teaching practice, 7, 73
 Open-ended questions, 91
 Oral CMC, 15
 Oral participation, effect of poor IT
 infrastructure and ICT
 skills on, 21–22
 Oral proficiency and fluency, 13–14
 importance of practicing speaking
 skills, 13–14
 peer support programs, 14
 psychological factors, 13
- Pakistan, 86
 Pakistani context, 87–88
 Pandemics, 4
 Participants' use of technologies,
 57–58
 Participants' views on online learning,
 58–59
 Passive learning, 69, 77
 Pedagogical challenges, 14
 Pedagogical changes, 44–47
 Pedagogy, 39
 Peer mentoring, 14
 Peer support programs (PSP), 6, 14
 Peer teaching, 14
 Peer tutoring, 14
 Perceived instructor presence (*see*
 Teaching presence)
 Perception, 69
 Personalised e-learning system, 54

- Physical classroom education, 86, 90, 93–94, 103–104, 107
- Physiology teaching, 70
- Policy, 6–7
- Policy and practice, 44–45
- Policy makers, 42, 44
- Political unrest, 89, 93
- Practicing speaking skills, importance of, 13–14
- Private university, 86
- Problem-based learning, 73
- Problem-solving, 69
- Proctored Remote Exam (PRExa), 43
- Public university, 44
- Puzzles, 70–71
- Qualitative analysis, 17–18
- Qualitative data analysis, 91–93, 115
- Quality control, 4
- Quantitative analysis, 6, 18–19
- Quantitative data analysis, 89–91
- Radios, 33
- Randomized controlled trials (RCTs), 5
- Rapid qualitative study, 114
- Reasoning, 69
- Researchers, 33
- Resources, time, and financial benefits, 38–39
- Sampling, 35–36
- School-going process, 45
- Semi-structured interviews with five English instructors, 17–18
- Shockwave and Light, 42
- Short stories as teaching aid in medical education, 68
- Skype, 115
- Skype.com, 113
- Social distancing, 12
- Social presence, 16–17
- Sophomores, 7, 53, 55, 57–61
- Speaking skills, 13
 - assessment, 21
 - challenges of engaging students in speaking activities, 21
 - in English during lockdown,
 - challenges of developing and improving, 20
 - learning from home, 22
 - effect of poor IT infrastructure and ICT skills on oral participation, 21–22
 - effect of psychological factors on student engagement during distance education, 21
 - struggle to build instructor–student relationships, 20
- Stakeholders, lack of support from, 40
- State bureaucracy, 5
- Stories in teaching physiology, 68
- Storification, 68
- Story-based education, 75
- Story-based learning, 68, 73
- Student engagement, 21
- Student-centered, 45, 113
- Student-to-student interaction (SSI), 8, 102–103
- Student's behaviours, 75
- Student's creativity, 68
- Students, 4–6, 89, 91
- Students' abilities, 55
- Students' personal efforts, 24
- Survey method, 56
- Synchronous CMC, 15–16
- Synchronous learning, 67
- Synchronous online learning, 67
- Teachers, 35, 39, 41, 46
- Teaching, 102
- Teaching and assessment practice, 70
- Teaching and learning, 6, 32, 40, 114
- Teaching presence, 16–17
- Technological skills and training, 7
- Technology, 6, 15, 27, 52–53, 119
- Television channels, 33
- Tertiary education, 94
- Tertiary EFL students, 6
- Text-based CMC, 15
- Thematic coding, 91–92
- Transformation, 6–7

- Turkey, 53
 - findings, 57–59
 - limitations, and recommendations of study, 61–62
 - literature review, 53–55
 - method, 55–57
- Turkish context, 53
- United Nations (UN), 5
 - agencies, 5
- United Nations Office for the Coordination of Humanitarian Affairs (OCHA), 86
- Universities, 4
 - lack of support from, 40
- University Grants Commission (UGC), 35
- Value creation, 4
- Video conferencing, 15
- Virtual reality (VR), 15
- Vision 2030, 114, 120
- Wearing masks, 12
- Webex video conferencing application, 12, 86–87, 100
- Western Kenya, 9, 114
- WhatsApp, 87
- WhatsApp.com, 113
- Widening participation, 37–38
- World Health Organization (WHO), 100
- Youtube.com, 113
- Zoom, 39, 86–87, 100, 113, 115
