

Index

- Analogical reasoning, 66
Analogies, 141, 143–146, 165–166
Artificial intelligence (AI), 15, 144
- Baron's theory, 47
Behavioral constraints
 in open innovation, 193
 of BMs, 192–193
 practical impact, 196
Business model(s/ing) (BM), 1–2,
 14–17, 38–39, 55, 57, 99,
 102, 139–140, 191, 208
 and cognition, 2–5, 57–60
 design(ing), 55–56, 68, 99–100
 frameworks, 113–117
 information processing, 102–103
 outcomes, 104–106
 pivot, 65
 revision, 40
 specification, 215
 strategic fit, 219–221
 template selection, 65, 78–79
 thinking, 48–49
 visual framing effects, 103–106
Business model design (BMD),
 210–211, 213, 215,
 225, 231
Business model innovation
 (BMI), 2, 39–40, 141–142,
 174, 192, 208–209, 211–214,
 228–229
 and cognition, 5–7
 cognitive barriers to, 39–44
 design criteria, 216
Business model reconfiguration
 (BMR), 207, 210–219,
 221–222, 229, 231
 path-dependent, 213–214
Cognition, 2–7, 14, 57–60, 100–102,
 174, 205 (*see also*
 Metacognition)
 BMI and, 5–7
 BMs and, 2–5, 57–58
 open BMI and cognition, 6–7
Cognition-inspired research, 142
Cognitive abilities, 173
Cognitive approach, 231
Cognitive barriers, 213
 to BMI, 39–44
Cognitive dispositions, 100, 104–106,
 108
Cognitive dissonance, 66, 87–89
Cognitive dynamics, 44–48, 166
Cognitive maps/mapping, 15, 17–25,
 27–31, 231
Cognitive mechanisms, 141
Cognitive processes, 18, 68
Cognitive psychotherapy, 44n7
Cognitive reframing, 44, 47
Cognitive representations of
 complex activity systems,
 15–17
Cognitive research on business
 model innovation,
 137–139
Cognitive safety, 102, 105
Cognitive schemas, 17–20, 25–26
 mapping, 22–25
Cognitive science, 146
Cognitive tasks, 208, 210
Cognitive work, 58
Competitive strategies, 217
Complementarity assessment,
 223–225
Complementary assets, 6
Content analysis, 28

- Customer
 - discovery, 240
 - engagement, 163–164
 - identification, 27
- Customer relationship management (CRM), 140
- Decision-making, 39*n*2
 - managerial cognition and decision-making, 46
- Design thinking, 238–240
- Design-centered thinking, 193
- Design-driven innovation approach, 175
- Discovery-driven BM design, 88
- Discovery-driven nature of BMR, 212–213, 215
- Discovery-driven planning (DDP), 212, 238–239
- Dominant logic, 213
- Dual-process theory, 100–101
- Dynamic capabilities for generative sensing, 238, 240
- E-commerce, 87
- Ecosystem
 - business model in, 141
 - cloud-based ecosystems, 147
 - of customers and partners, 149
 - Salesforce, 164
- Evidence-based management, 239
- False-negative technologies, 191–192, 194
- Fear of Looking Foolish (FOLF), 192, 195–196, 201–203
 - NIH syndrome, 194
- Filtered search and learning, 66
